conditions by integrating multidisciplinary insights it presents a holistic view of frailty addressing its clinical societal and policy related aspects aiming to enhance well being and inform clinical practitioners educators and policymakers this book can serve as a reference guide with up to date information on frailty in older adults for geriatric medicine physicians primary care clinicians geroscience researchers nurses therapists ot pt st and social workers

this book combines elementary theory from computer science with real world challenges in global geodetic observation based on examples from the geodetic observatory wettzell germany it starts with a step by step introduction to developing stable and safe scientific software to run successful software projects the use of software toolboxes is another essential aspect that leads to the application of generative programming an example is a generative network middleware that simplifies communication one of the book s main focuses is on explaining a potential strategy involving autonomous production cells for space geodetic techniques the complete software design of a satellite laser ranging system is taken as an example such automated systems are then combined for global interaction using secure communication tunnels for remote access the network of radio telescopes is used as a reference combined observatories form coordinated multi agent systems and offer solutions for operational aspects of the global geodetic observing system ggos with regard to industry 4 0

state failure takes many forms somalia offers one extreme the country s prolonged civil war led to the collapse of central authority with state control devolving to warlord led factions that competed for the spoils of local commerce political power and international aid malawi on the other hand is at the other end of the scale during president bingu s second term in office the country s economy collapsed as a result of poor policies and bingu s brand of personal politics on the surface malawi s economy seemed largely stable underneath however the polity was fractured and the economy broken in between these two extremes of state failure are all manner of examples many of which mills explores in the fascinating and profoundly personal why states recover

throughout he returns to his key questions how do countries recover what roles should both insiders and outsiders play to aid that process drawing on research in more than thirty countries and incorporating interviews with a dozen leaders mills examines state failure and identifies instances of recovery in latin america asia and africa for anyone interested in the reasons behind states failure and remedies to ensure future economic stability it is important reading

studienarbeit aus dem jahr 2008 im fachbereich soziologie medien kunst musik

note 20 Johannes Kepler Universität Linz Soziologie Veranstaltung Kultur und Mediensoziologie zentrale Themen Sprache Deutsch Abstract Das Internet und alle seine Funktionen sind innerhalb der letzten 10 Jahre vom Hype zum universellen Arbeits- und Kommunikationsmedium aufgestiegen. Scheinbar grenzenlos ist das Entwicklungspotenzial, das das E-Business zu einem der bis dato schnelllebigsten macht. Nicht nur die unzähligen Möglichkeiten für die Geschäftswelt, sondern auch jene im privaten Bereich und hier die Sparte des Social Networking, macht die globale Vernetzung für beinahe jeden attraktiv. 20 ist das Schlagwort der Stunde. Seit einigen Jahren geistert es verstärkt durch die Medien, erstmals geprägt wurde der Begriff des 20 im Jahr 2004 vom O'Reilly Verlag. Eine ausgeformte Definition wurde jedoch nicht geliefert. Bis heute ist 20 vielen Anwendern zwar ein Begriff, wissen aber meist nicht viel damit anzufangen, und dies wird sich höchstwahrscheinlich auch nicht gravierend ändern, da die Entwicklungen zu schnell voranschreiten, um den Erklärungsbedarf der unerfahrenen User decken zu können. Probleme bereitet den Social Networks auch ihre eigene Unüberschaubarkeit. Nicht nur des eigentlichen Zweckes wegen werden die Seiten genutzt. Vielfach wird eine Social Networking Seite als Möglichkeit für kriminelle Handlungen gesehen. Eine exzessive Nutzung des WWW kann in die Abhängigkeit bis zur Selbstzerstörung führen. Internet Addiction wurde vom New Yorker Psychiater Ivan Goldberg im Scherz eingeführt. Der Begriff wurde zu einer Art Selbstläufer, als die renommierte New York Times im Februar 1995 einen Artikel zu den Gefahren der Internetsucht veröffentlichte. Dem Thema der Internetsucht und der sozialen Vereinsamung haben sich in Deutschland besonders die Psychologen Nicola Döring von der TU Berlin und Bernad Batinic von der Uni Gießen angenommen. Es wurde untersucht, inwieweit deutsche Internetuser innen tatsächlich einsamer sind bzw. weniger reale soziale Kontakte haben als nicht Internet User innen.
