the british withdrawal from the gulf in 1971 brought to an end the british imperial era in the history of the trucional states and marked the birth of the united arab emirates this book first published in 1978 establishes the political social economic and cultural heritage of the uae and explains the

formative issues in the development of the new state from 1892 to 1971 the history of the gulf was determined by the british presence initially the region was regarded by the british as no more than a part of the strategic defence of india but by 1945 oil and international air communication had given the region a new strategic importance this volume examines both the early india office policy of non interference in the internal affairs of the region and the circumstances after 1947 which prompted the foreign office to interfere in certain internal issues the second half of the book seeks to explain the development of arab nationalism the growth of iranian activities and the relations of the trucional states with their western neighbours saudi arabia and qatar the last chapter provides an historical explanation for the present interstate boundaries and political geography of the region

nanocarriers based colon targeting design development mechanism and case studies unveils a groundbreaking exploration of nanotechnology s potential in revolutionizing drug delivery for colon related ailments today an array of colonic diseases including colorectal cancer colonic polyps ulcerative colitis and inflammatory bowel syndrome pose significant medical challenges conventional methods to deliver drugs to this system prove difficult with limited efficacy and notable side effects this book delves into the intricate complexities of colonic diseases their pathophysiology and epidemiology to support pharmaceutical scientists in designing better drug delivery systems providing a comprehensive overview of the area the chapters elucidate diverse targeting strategies from time dependent to microbiota based drug delivery systems and explore receptor based and magnetically assisted delivery mechanisms case studies dissected the working mechanisms behind polymeric nanoparticles polymersomes polymeric micelles solid lipid nanoparticles and other nanocarrier systems tailored for colon targeting additionally this book explores cuttingedge topics such as gold nanoparticles supra magnetic iron oxide nanoparticles and protein peptide based nanoparticles highlighting their mechanisms applications and potential toxicities merging an overview of colonic pathophysiology with in depth reviews of each nanomaterial used for drug delivery and practical case studies nanocarriers based colon targeting design development mechanism and case studies is a complete reference for pharmaceutical scientists involved in elevating drug delivery precision and therapeutic efficacy in this organ system toxicologists material scientists research physicians and regulators can also benefit from the case studies developed by expert authors introduces different colonic diseases and their pathophysiology explains the mechanism of action of different nanocarriers in colon targeting presents case studies of different nanocarriers in colon targeting

crime prevention through environmental design cpted is a practice

oriented approach to reduce the risk of offences such as burglary and fear of crime by modifying the built environment in recent years this approach has been criticised for duplicating terminology and for failing to integrate successfully with other approaches rebuilding crime prevention through environmental design explores and extends the common ground between cpted and situational crime prevention another traditional approach in the field of crime prevention and security via the latter s evolution into the field of crime science drawing on international research to develop new interdisciplinary perspectives this volume explores how situational crime prevention and environmental criminological theories relate to those of crime prevention through environmental design and considers how crime science can be reformulated to merge different approaches or at least articulate them better rebuilding crime prevention through environmental design will appeal to students applied academic researchers and practitioners who wish to deepen their understanding and contribute in turn to the ongoing revitalisation of the field

this four volume work presents an extensive collection of treaties and agreements determining the modern history of the arabian gulf and peninsula while such a work cannot be fully comprehensive detailed research has been undertaken to find and collate new material the editors have broken new ground by reproducing regional inter state and local treaties agreements and exchanges of letters many of which have not been previously published the treaties are arranged by country with an introductory selection of important international treaties relating to general commercial issues and to european political and territorial arrangements at the time of the first world war from publisher s description
