the focus of beattie s book on the theology of woman is to discern the place of the female body in the christian story of salvation and she has done so from the very heart of christian stylisations of the female the figures of mary and eve

tina beattie has written a stunning book on the theology of woman her stated objective is to discern the place of the female body in the christian story of salvation and she has done so from the very heart of christian stylisations of the female the figures of mary and eve beattie has pursued her subject with the aid of french psychoanalytic feminism these writers are preoccupied as is catholic theology with questions of language and symbolism but she deliberately puts herself at odds with neo orthodoxy and feminist liberal theology she believes that theologians like von balthasar depart from the best patristic tradition of marian theology with disastrous effect nor does she offer any solace to the marina warners of this world in a book which is strong in defence of classical marian theology she defends with passion and theological insight not only the virgin birth the immaculate conception and the assumption but also the perpetual virginity of mary virginal desire according to beattie need not be seen negatively but as an affirmation of the integrity of women s desire before god in a way not dependent on the phallus nor reducible to genitality

o neill s original grace provides a fresh analysis of biblical texts and explores the rich tradition and development of marian devotion liturgical prayer artwork and dogma it invites the reader to discover how our capacity for biblical and theological understanding matures over time correcting our perception of mary the second eve and the mother of jesus the christ and of the place and role of women in church and society this exhilarating book reveals the benefit that courageous questioning can bring to the church s self understanding and to the vital relationships between women and men in it we gently discover that a wise and good god is our creator affirming us in our gendered humanity still slowly teaching us what went on in eden in nazareth and on calvary

this book traces the history of the annunciation exploring the deep and lasting impact of the event on the western imagination waller explores the annunciation from its appearance in luke s gospel to its rise to prominence in religious doctrine and popular culture and its gradual decline in importance during the enlightenment

abortion remains the most contested political issue in american life poll results have remained surprisingly constant over the years with roughly equal numbers supporting and opposing it a common perception is that abortion is contrary to christian teaching and values while some have challenged that perception few have attempted a comprehensive critique and constructive counterargument on christian ethical and theological grounds margaret kamitsuka begins with a careful examination of the churchs biblical and historical record refuting the assumption that christianity has always condemned abortion or that it considered personhood as beginning at the moment of conception she then offers carefully crafted ethical arguments about the pregnant womans authority to make reproductive decisions and builds a theological rationale for seeing abortion as something other than a sin

this book investigates the movement of the eve parallelism along the chain of tradition focusing primarily upon the female characters of the gospel of john the principal aim is to explore their interrelationship with the mother of jesus who in the developed ecclesial tradition is eventually given the title new eve accordingly this work examines the motif of woman in the fourth gospel by probing the use of the nuptial metaphor where female narrative characters are presented both as idealized disciples and fictive brides of the divine bridegroom by means of a common narrative critical approach this book then engages the thought of hippolytus of rome as found in his commentary on the song of songs specifically it explores how his focus upon the myrrophores is an expansion of the johannine tradition and one in which the nuptial metaphor takes on an ecclesial significance by presenting the primordial garden in a narrative climax whereby a symbolic recapitulation occurs in the resurrection garden hippolytus shifts the eve parallelism from the mother of jesus to the magdalene this in turn is early evidence of a confluence of understanding whereby she is not only disciple but also both eve and apostola apostolorum
