this volume brings together the vital contributions of distinguished past and contemporary philosophers to the important topic of personal identity the essays range from john locke s classic seventeenth century attempt to analyze personal identity in terms of memory to twentieth century defenses and criticisms of the lockean view by anthony quinton h p grice sydney shoemaker david hume joseph butler thomas reid and bernard williams new to the second edition are shoemaker s seminal essay persons and their pasts selections from the important and previously unpublished clark collins correspondence and a new paper by perry discussing williams

this book addresses whether personal identity is analyzable with innovative discussion of complex and simple theories

soul self substance and person are just four of the terms often used to describe the human person cutting across metaphysics ethics and religion the nature of personal identity and the self is a fundamental and long standing puzzle in philosophy personal identity and applied ethics introduces and examines different conceptions of the self and personal identity and considers the implications of these for applied ethics a key feature of the book is that it considers a range of different views of the self philosophical religious and cross cultural including perspectives from non western traditions within this comparative framework andrea sauchelli examines the following topics early views of the soul in plato christianity and descartes the buddhist no self and the self as a fiction and hume on the self confucian ideas of the self and the importance of self cultivation as constitutive of the self locke s theory of personal identity as continuity of consciousness and memory and objections to locke s argument by butler and reid as well as contemporary critics the theory of animalism and arguments concerning embodied concepts of personal identity narrative theories of personal identity and moral agency personal identity and self knowledge personal identity and important issues in applied ethics including abortion euthanasia and the idea of life after death implications of life extending technologies for the self and personal identity throughout the book andrea sauchelli also considers the views of important recent philosophers of personal identity such as sidney shoemaker bernard williams david wiggins derek parfit galen strawson and christine korsgaard placing these in helpful historical context the addition of chapter summaries and annotated further reading make this a refreshing approachable introduction to personal identity and applied ethics it is an ideal text for courses on personal identity that consider both western and non western approaches and that apply theories of personal identity to applied ethics it will also be of interest to those in related subjects such as religious studies and history of ideas

offers a new way of thinking about the relation between personal identity and practical interests seeing persons as unified loci of practical interaction and

defining the identity of a person in terms of the unity of a characteristic kind of life

exploring issues ranging from the metaphysical to the moral and legal a team of esteemed contributors bring together some of the most important and cutting edge findings in experimental philosophy of the self to address longstanding philosophical questions about personal identity such as what makes us today the same person as our childhood and future selves can certain changes transform us into a different person do our everyday moral practices presuppose a false account of who we are chapters offer a survey of recent empirical work and foster dialogue between experimental and traditional philosophical approaches to identity covering the moral self dual character concepts true self transformative experience and the identity conditions collective entities with novel experiments and thought provoking applications to practical concerns including law immigration bioethics and politics this collection highlights the value and implications of empirical work on personal identity

when philosophers address personal identity they usually explore numerical identity what are the criteria for a person's continuing existence when non philosophers address personal identity they often have in mind narrative identity which characteristics of a particular person are salient to her self conception this book develops accounts of both senses of identity arguing that both are normatively important and is unique in its exploration of a range of issues in bioethics through the lens of identity defending a biological view of our numerical identity and a framework for understanding narrative identity degrazia investigates various issues for which considerations of identity prove critical the definition of death the authority of advance directives in cases of severe dementia the use of enhancement technologies prenatal genetic interventions and certain types of reproductive choices he demonstrates the power of personal identity theory to illuminate issues in bioethics as they bring philosophical theory to life

how can you understand yourself where do your views attitudes and values come from and why do they change this accessible and illuminating book provides a reliable guide to these questions the book demonstrates that personal identity is formed around basic needs for security and self esteem and the personal desires that flow from them shows the role of the emotions in personal life explores the limits of approaches that deny the existence of individuals and personal experience demonstrates how we build on everyday problems and dilemmas of life to shape our moods attitudes and feelings shrewd and compelling the book will be of interest to anyone studying social psychology and sociology
