in this volume julie klein provides the first comprehensive study of the modern concept of interdisciplinarity supplementing her discussion with the most complete bibliography yet compiled on the subject in this volume julie klein provides the first comprehensive study of the modern concept of interdisciplinarity supplementing her discussion with the most complete bibliography yet compiled on the subject spanning the social

sciences natural sciences humanities and professions her study is a synthesis of existing scholarship on interdisciplinary research education and health care klein argues that any interdisciplinary activity embodies a complex network of historical social psychological political economic philosophical and intellectual factors whether the context is a short ranged instrumentality or a long range reconceptualization of the way we know and learn the concept of interdisciplinarity is an important means of solving problems and answering questions that cannot be satisfactorily addressed using singular methods or approaches

the theory and practice of learning explores the basic theories of learning how they have developed and how they can be put into practice

this book proposes that community development has been increasingly influenced and co opted by a modernist soulless rational philosophy reducing it to a shallow technique for solving community problems in contrast this dialogical approach re maps the ground of community development practice within a frame of ideas such as dialogue hospitality and depth for the first time community development practitioners are provided with an accessible understanding of dialogue and its relevance to their practice exploring the contributions of internationally significant thinkers such as p freire m buber d bohm and h g gadamer j derrida g esteva and r sennett what makes the book distinctive is that first it identifies a dialogical tradition of community development and considers how such a tradition shapes practice within contemporary contexts and concerns economic social political cultural and ecological second the book contrasts such an approach with technical and instrumental approaches to development that fail to take complex systems seriously third the approach links theory to practice through a combination of storytelling and theory reflection ensuring that readers are drawn into a practice theory that they feel increasingly confident has been tried and tested in the world over the past 25 years

drawing on the underrepresentation of the global south in global knowledge production with a focus on the existing inequalities the book highlights the importance of postcolonial narratives within global southern epistemologies in english language teaching elt and teaching english to speakers of other languages tesol chapters consider the epistemological landscapes of these fields their dedication to english teaching and english related topics and the intersection of the colonality of language and the supremacy of english worldwide the book explores the type of discussion that is needed to advance a more nuanced understanding of sociopolitical circumstances and how they shape our academic practices and theorizations of elt and tesol in doing so chapters examine the current geopolitics of knowledge that are found in journal publishing citing how it favours the global north and further exploring ways of decolonizing language practices teaching approaches and research cultures calling for greater visibility and recognition of southern ways of knowing within elt and tesol practice and research the book will be an essential reading for scholars researchers and students of tesol elt applied linguistics and multilingualism

in the years since the publication of the best selling first edition the incorporation of ideas and theories from the rapidly growing field of financial economics has precipitated considerable development of thinking in the actuarial profession modern actuarial theory and practice second edition integrates those changes and presents an up to date comprehensive overview of uk and international actuarial theory practice and modeling it describes all of the traditional areas of actuarial activity but in a manner that highlights the fundamental principles of actuarial theory and practice as well as their economic financial and statistical foundations

modern businesses and organizations understand that corporate social responsibility csr has become an important factor for sustainable success at the same time csr has established itself as a widely accepted element of courses in managerial training and education this book designed to support csr teaching collects 14 essays that clearly illustrate and explain the benefits and challenges of socially responsible corporate policies aligning theory and practice the book focuses on four central themes management environment and sustainability corporate social responsibility and accounting and financial reporting business students and experienced managers alike will find this book a valuable resource that helps them to discover the strong forces that link successful management with corporate social responsibility

internet marketing has become an important issue for many businesses around the world which have any form of commercial presence on the net it is often perceived that doing business on the internet mostly requires competency in the technology area however as many dot com companies are failing due to lack of revenue generation which could be induced by the inadequate marketing and marketing research practitioners and scholars of e commerce are keen to obtain a better understanding of the whole phenomenon of internet marketing to understand what s working as an internet marketing strategy or tactic one needs to conduct marketing research using rigorous statistical methodology
