case studies have become a widely used instructional tool in many educational environments the use of case studies began in the 1950s at harvard business school today they may be used as part of a course of study or as the main focus of a course to which other material is added

while the use of case studies is prevalent in schools of business and medicine they are not often used in adult education or human resource development this may be because there are no current major publications that deal with the use of case studies in these disciplines nor are there any major databases of adult education or human resource development case studies for instructors to use good case studies can bring reality into the classroom they can provide frameworks for discussion based on issues that must be faced in real life complex case issues can be broken down and examined for greater understanding then pulled together again for resolution case studies can be used successfully in adult education i propose a book based on the use of case based learning in adult education and human resource development hrd the book could be positioned as a supplement to course textbooks for courses in adult education and hrd i would write the cases and develop the exercises but could also get others to contribute a case study or exercise to the book cases would each be a half page to maybe 2 3 pages at the long end and would include questions for students readers supplementary information possibly in the form of a dvd could be put together for instructors this information would include case study focal points and examples of possible responses for each study exercise

this answer guide provides photocopiable example answers for all of the case studies in the student s edition business case studies 2nd edition by the same authors

master your course with the practice and hands on activities that will help you get ready for the medical office in this new edition of study guide for jones bartlett learning s comprehensive medical assisting the exercises and activities align with the most current medical assisting education review board maerb of the american association of medical assistants aama curriculum standards the study guide is divided into sections that coincide with the textbook and includes exercises that reinforce the knowledge and skills required of all medical assistants
