information is a critical resource for personal economic and social development libraries

and archives are the primary access point to information for individuals and communities with much of the information protected by copyright or licence terms in this complex legal environment librarians and information professionals operate at the fulcrum of copyright's balance ensuring understanding of and compliance with copyright legislation and enabling access to knowledge in the pursuit of research education and innovation this book produced on behalf of the ifla copyright and other legal matters ctm advisory committee provides basic and advanced information about copyright outlines limitations and exceptions discusses communicating with users and highlights emerging copyright issues the chapters note the significance of the topic describe salient points of the law and legal concepts present selected comparisons of approaches around the world highlight opportunities for reform and advocacy and help libraries and librarians find their way through the copyright maze

extensively updated and expanded to reflect the evolving landscape of online crime this fourth edition of *cybercrime and society* is a comprehensive and accessible introduction to this complex and fascinating topic but just what are cybercrimes and who are the cybercriminals you will learn how the internet and communication technologies present new challenges to individual and collective safety social order and stability economic prosperity and political liberty from hacktivism and digital disobedience to online harassment and sexual exploitation *cybercrime and society* is the definitive book for undergraduate and postgraduate students studying modules in cybercrime and cybersecurity the fourth edition covers new and contemporary issues such as ai and preventative approaches to counter cybercrimes and also includes two new chapters online falsehoods provides coverage of fake news disinformation and conspiracies each of which have rapidly become a major online problem with significant consequences illegal goods and illicit markets combines discussion of issues such as the trade in prohibited goods online and via crypto markets with discussion of piracy and copyright crime in addition to the extensive updating and expansion of the topics covered in the 2019 edition all kinds of new developments are introduced and assessed new case studies and examples are presented and the international scope and coverage of the book has been further expanded with treatment of the canadian and australian contexts

being given greater consideration majid yar is professor emeritus of criminology at lancaster university kevin f steinmetz is a professor of criminology at kansas state university

treating philip roth as a war writer as well as a sportswriter crime reporter political commentator and newark chronicler roth s wars a career in conflict offers a thoroughly researched account of the novelist s preoccupation with wars around the world and wars at home this wide ranging social and cultural history of roth s career examines intersections between roth s preoccupations as a writer and the work of contemporaries such as j d salinger joan didion george plimpton hannah arendt e l doctorow flannery o connor michael herr and don delillo the legends and icons who figure in this account of roth s career include dwight eisenhower meyer lansky ernie pyle bob dylan johnny appleseed anne frank jfk mickey mantle the marx brothers thomas paine sandy koufax and franz kafka

the growth of the internet has been spectacular there are now more than 3 billion internet users across the globe some 40 per cent of the world s population the internet s meteoric rise is a phenomenon of enormous significance for the economic political and social life of contemporary societies however much popular and academic writing about the internet continues to take a celebratory view assuming that the internet s potential will be realised in essentially positive and transformative ways this was especially true in the euphoric moment of the mid 1990s when many commentators wrote about the internet with awe and wonderment while this moment may be over its underlying technocentrism the belief that technology determines outcomes lingers on and with it a failure to understand the internet in its social economic and political contexts misunderstanding the internet is a short introduction encompassing the history sociology politics and economics of the internet and its impact on society this expanded and updated second edition is a polemical sociologically and historically informed guide to the key claims that have been made about the online world it aims to challenge both popular myths and existing academic orthodoxies that surround the internet

the key to solving big complex problems a powerful and flexible organizing system that

can span regions teams and silos of all kinds the social and environmental challenges we face today are not only complex they are also systemic and structural and have no obvious solutions they require diverse combinations of people organizations and sectors to coordinate actions and work together even when the way forward is unclear even so collaborative efforts often fail because they attempt to navigate complexity with traditional strategic plans created by hierarchies that ignore the way people naturally connect by embracing a living systems approach to organizing impact networks bring people together to build relationships across boundaries leverage the existing work skills and motivations of the group and make progress amid unpredictable and ever changing conditions as a powerful and flexible organizing system that can span regions organizations and silos of all kinds impact networks underlie some of the most impressive and large scale efforts to create change across the globe david ehrlichman draws on his experience as a network builder interviews with dozens of network leaders and insights from the fields of network science community building and systems thinking to provide a clear process for creating and developing impact networks given the increasing complexity of our society and the issues we face our ability to form grow and work through networks has never been more essential networks are the organizing system of the future and this book is your guide philip li president and ceo robert sterling clark foundation

in this book the author explores how search media can be incorporated into freedom of expression doctrine as well as media and communications law and policy more generally and the book develops a theory of the legal relations between national governments and search media providers on the one hand and between end users and information providers on the other among the many issues covered are the following role of government under the right to freedom of expression lack of transparency about the ranking and selection of search results search engine and isp intermediary liability filtering by access providers freedom of expression and the governance of public libraries the search engine market its business model and the separation rule for advertising search engine self regulation user profiling and personalization decisions and actions for which search engines should be able to claim protection the analysis draws on specific

legal developments under article 10 of the european convention on human rights and the united states first amendment and investigates issues of diversity pluralism and freedom of expression as they relate to editorial control in other media the author concludes with recommendations regarding search engine governance and the proper role of government indicating which existing elements of the regulatory framework for search media can be improved and offering directions for future legal and empirical research considering the ever growing cultural political and economic importance of the internet and the world wide in our societies and the societal interests involved in the availability of effective search tools this first in depth legal analysis of search engine freedom will prove indispensable to the many practitioners and policymakers concerned with freedom of expression in the digital age

lack of access to affordable high quality child care is frequently the tipping point that catapults a family into poverty joblessness and homelessness polakow presents the compelling stories of low income women from across the nation and chronicles their resilient struggles in the face of ongoing child care crises the resulting work is an incisive critique of public policy that points to the shameful record of the united states in caring for its children drawing on historical and international perspectives polakow creates a groundbreaking analysis of child care as a human right persuasively arguing for a universal child care system publisher description

cory doctorow s attack surface is a standalone novel set in the world of new york times bestsellers little brother and homeland most days masha maximow was sure she d chosen the winning side in her day job as a counterterrorism wizard for an transnational cybersecurity firm she made the hacks that allowed repressive regimes to spy on dissidents and manipulate their every move the perks were fantastic and the pay was obscene just for fun and to piss off her masters masha sometimes used her mad skills to help those same troublemakers evade detection if their cause was just it was a dangerous game and a hell of a rush but seriously self destructive and unsustainable when her targets were strangers in faraway police states it was easy to compartmentalize to ignore the collateral damage of murder rape and torture but when it hits close to home and the hacks and exploits she s devised are directed at her friends and family including

boy wonder marcus yallow her old crush and archrival and his entourage of naïve idealists masha realizes she has to choose and whatever choice she makes someone is going to get hurt at the publisher s request this title is being sold without digital rights management software drm applied

information professionals are becoming increasingly reliant on content in digital form such as databases news feeds e books electronic reference materials or e journals or they may wish to digitize content that they hold in hard copy format rather than relying exclusively on copyright law to protect their content rights owners also use licence or contractual agreements and technology in the shape of digital rights management drm systems and electronic rights management information in order to protect control and enforce their rights over digital assets drm technology is used in order to control access to digital content the uses made of that content and the integrity of the work and also in order to ensure payment the copyright directive 2001 29 ec which was implemented in the uk through the copyright and related rights regulations gave legal protection to those using such systems this book is a practical guide to the use of digital content it deals with the question of how electronic information can be used legitimately outlining the issues to be considered and suggests practical ways in which copyright clearance can be obtained whilst keeping the administration to a manageable level it will cover topics such as managing database and e journal licenses rights such as music video or audio content the implications of digital rights for teaching and learning such as the use of digital content in virtual or management learning environments the rights owner s perspective editor

widely regarded as the one essential book for every science fiction fan the year s best science fiction winner of the 2002 locus award for best anthology continues to uphold its standard of excellence with more than two dozen stories representing the previous year s best sf writing this year s volume includes ian r macleod nancy kress greg egan maureen f mchugh robert reed paul mcauley michael swanwick robert silverberg charles stross john kessel gregory benford and many other talented authors of sf as well as thorough summations of the year and a recommended reading list

grounded in applied linguistics research and composition theory and practice technologies in the second language composition classroom encourages teachers to explore the role technology can play in the acquisition of writing for second language students this research based volume supports the incorporation of technology into classrooms providing students with motivation and tools to develop their writing skills the book provides not only an intellectually engaging perspective on the on going debates regarding technologically enhanced writing and writing pedagogy but it also delves in to the technologies themselves from blogs and blogging to computer mediated discourse and concordancing technology is a growing and rapidly evolving presence in academia and joel bloch brings an informed approach to understanding its place and potential benefits in the classroom each chapter includes reflection questions that will help individual readers apply the theories and ideas to their own classrooms this book will interest esl teachers in training teacher educators current esl instructors and researchers and scholars in the area of esl writing and technology
