the shang han lun has been a primary treatment theory and practice source for nearly two millenia its author zhang zhong jing has been named the chinese hippocrates to highlight

the depth and breadth of his contribution to traditional chinese drug therapy this edition features the chinese text pinyin transliteration and an english translation of the entire song dynasty text the content and textual order most used in asia just as in chinese language editions it is fully supplemented with notes and commentaries the notes describe the clinical symptoms zhang zhong jing associated with the chinese terms for example modern interpretations of a moderate pulse often refer to the speed of its beats the same term when used in the shang han lun refers to a pulse that is loose soft and harmonious such notes provide practitioners with the clinical observations necessary to properly apply the information the commentaries further enhance the text s clinical utility by explaining the theoretical and practical foundations behind the lines of text because entire bodies of theory and practice can be associated with the terms and expressions used in canonical works like the shang han lun commentaries have become a standard means of knowledge acquisition for asian students the commentaries in this edition serve exactly the same purpose greatly enhancing its utility the introductory matter explains the background of the text the conceptual structure of its contents and the problems of exegesis the appendices are designed to assist those studying chinese and the glossary and the full pinyin english index make this an easily accessed reference

the shang han lun simplified chinese 伤寒论 traditional chinese 傷寒論 pinyin shānghán lùn known in english as the treatise on cold damage disorders or the treatise on cold injury is a chinese medical treatise that was compiled by zhang zhongjing sometime before the year 220 at the end of the han dynasty it is amongst the oldest complete clinical textbooks in the world and one of the four canonical works that students must study in traditional chinese medical education today the current edition is in ten volumes including the first to chapters on pulse diagnosis the shang han lun has 398 sections with 113 herbal prescriptions organised into the six divisions corresponding to six stages of disease

this book of traditional chinese medicine discusses the modern interpretations practices and applications of shanghan lun known in english as the treatise on cold damage disorders which is a chinese medical treatise compiled by zhang zhongjing sometime before the year 220

written by cheng wuji and published in 1144 this is a complete commentary on the entire text of on cold damage the shang han lun in the song dynasty order the entire text means that cheng s commentary includes the four chapters on the pulse as well as the chapters on the prohibitions in the back of the shang han lun all told this adds another 250 lines of text to the shang han lun in addition to cheng wuji s commentary jonathan schell has annotated and translated cheng s lines with over 1600 lines from the su wen 500 lines from the ling shu 22 difficulties from the nan jing numerous passages from the classic of the pulse mai jing and commentary from zhang jingyue s lei jing zhang zhicong s commentaries on the su wen and ling shu wang bing s commentary on the su wen and as

well as numerous other shang han lun commentators this book has been produced in full color where the color has been used to show the attributed and unattributed quotes which the commentators use to illustrate their points this book also includes 52 illustrations 35 of which were composed by cheng wuji and 17 which have been composed by jonathan schell this book illustrates the pinnacle of classical thought where the reader through the annotations can trace cheng's thought process and apply the canonical texts of chinese medicine as cited by cheng to the understanding of the shang han lun

a major new translation of the chinese classic shang han lun by scholar and medical doctor guohui liu makes this foundational text fully accessible to english speaking clinicians for the first time extensive study and research underpins the translation the author's understanding of both classical and modern chinese enables him to interpret fully the ancient work within the theory of chinese medicine an extensive commentary explains the translation the difficulties with the text how it has been subsequently translated and expands on the theory laid out in the original text to reach an understanding that can be applied in the clinic for diagnosis and treatment the value of this classic text lies primarily in its establishment of a basic framework for differentiation and treatment but it also presents 112 formulas and 88 medicinal substances which are commonly applied in clinical work for various conditions in this edition the 112 formulas are fully explained in the context of the clinical experiences of well known ancient and modern doctors and they are also laid out in two appendices cross referenced to the text

in spite of many changes modern chinese medicine remains committed to a vision of illness as irreducibly complex and to an approach to cure individualization of treatments first learned from the treatise on cold damage during the song dynasty

in this book we endeavor to introduce readers to the cultural background origins and historical development of traditional chinese medicine we surveyed the most important events in its long history and the conditions that influenced its development including the cultural and philosophical ideas and assumptions that led to the development of the particular methods and techniques of healing that characterize chinese medicine our goal is not to give an exhaustive survey of the history and philosophy of chinese medicine but rather to convey the patterns of its development and allow readers to gain an understanding of the distinctive features of traditional chinese medicine

embark on a transformative journey to wellness with each person is their own best doctor traditional chinese medicine in practice a groundbreaking book by yingxiong feng celebrated as the best tcm doctor in new york chinatown hailed as the patients last hope feng's compassionate approach and profound expertise in traditional chinese medicine tcm are now accessible to western readers seeking an alternative path to health and well being in this enlightening guide yingxiong feng demystifies the principles of tcm a practice rooted in thousands of years of wisdom and holistic healing he believes that every

individual holds the key to their own health and through this book he empowers you to unlock that potential explore the intricacies of balance and harmony within the body and learn how ancient practices like acupuncture herbal remedies and meditation can be integrated into modern lifestyles for improved health each person is their own best doctor is more than a book it s a journey towards understanding and taking charge of your own health feng s accessible approach makes tcm understandable and relevant for western audiences whether you re a seasoned practitioner or new to the concept of holistic health this book is a treasure trove of insights practical advice and the wisdom of a doctor who has touched the lives of countless patients with his healing hands join the multitude who have found relief and a path to wellness through yingxiong feng s guidance each person is their own best doctor is not just a book it s a beacon of hope for those seeking a deeper more harmonious connection with their bodies and minds

the author is xu dachun whose style is lingtai he lived in the qing dynasty when studying shanghanlun he classified the texts not according to channel but by formula

the english edition of liu lihong s milestone work is a sublime beacon for the profession of chinese medicine in the 21st century classical chinese medicine delivers a straightforward critique of the politically motivated integration of traditional chinese wisdom with western science during the last sixty years and represents an ardent appeal for the recognition of chinese medicine as a science in its own right professor liu s candid presentation has made this book a bestseller in china treasured not only by medical students and doctors but by vast numbers of non professionals who long for a state of health and well being that is founded in a deeper sense of cultural identity oriental medicine education has made great strides in the west since the 1970s but clear guidelines regarding the traditional nature of traditional chinese medicine tcm remain undefined classical chinese medicine not only delineates the educational and clinical problems faced by the profession in both east and west but transmits concrete and inspiring guidance on how to effectively engage with ancient texts and designs in the postmodern age using the example of the shanghanlun treatise on cold damage one of the most important chinese medicine classics liu lihong develops a compelling roadmap for holistic medical thinking that links the human body to nature and the universe at large

how early print culture reshaped strategies for presenting medical knowledge why and how did the strategy of documenting medical practices through personal experience rise to prominence in china this question is at the heart of good formulas the first book length study of the use of empirical evidence in chinese medicine between the ninth and thirteenth centuries the rise of this new approach to substantiating knowledge which had appeared only sporadically in earlier medical literature provides a window into transformations in the construction of textual authority in mid imperial china focusing on medical genres and working extensively with notebooks biji ruth yun ju chen shows that

employing empirical evidence became prominent in conjunction with a publishing boom that enabled wider availability of medical texts and treatises to convince a more socioculturally diverse readership to believe their claims and to win intertextual debates with contemporaneous authors many song medical authors turned to empirical methodology revealing a correlation between publishing cultures and changes in persuasion strategies in medical genres good formulas offers new insights into the histories of medicine knowledge production and publishing in china it also provides rich examples for scholars interested in the development of empirical evidence in the premodern world

this book is an annotated translation of xu shuwei s 1080 1154 collection of 90 medical case records ninety discussions of cold damage disorders shanghan jiushi lun 傷寒九十論 which was the first such collection in china the translation reveals patterns of social as well as medical history this book provides the readers with a distinctive first hand perspective on twelfth century medical practice including medical aspects such as nosology diagnosis treatment and doctrinal reasoning supporting them it also presents the social aspect of medical practice detailing the various participants in the medical encounter their role the power relations within the encounter and the location where the encounter occurred reading the translation of xu s cases allows the readers high resolution snapshots of medicine and medical practice as reflected from the case records documented by this leading twelfth century physician the detailed introduction to the translation contextualizes xu s life and medical practice in the broader changes of this transformative era

this first manuscript on cold injuries was written in the period 1945 1946 as the result of personal experience gained in the winter months of the years 1941 1943 on the northern front in russia and subsequent experimental work at the chirurgische universitätsklinik in breslau wroclaw between 1943 and 1945 the intention at the time of writing was to present a summary of our experiences so that they might serve as a basis for further scientific and clinical work the manuscript has continually been revised and brought up to date for purely external reasons publication has been delayed until today our experience of cold preservation and of increased resistance to oxygen deficiency in chilled tissue acquired during the winter periods of the second world war in russia served as a basis for the development of local cryanaesthesia and hibernation which retroactively furthered to a considerable degree our knowledge of cold and frost injuries see my monograph on the biology and clinical treatment of the cold injury and general loss of temperature which appeared separately in 1966 and discusses all biological changes a comprehensive report on cold injuries was written in english in 1952 at the instigation of captain a r behnke jr usa m c not available commercially
