mystical oneness and the nine aspects of being presents an entirely new approach to spiritual enlightenment rational down to earth yet heart centric and loving wayne wirs takes you straight through the gateless gate of enlightenment and into the mysterious realms beyond each of the nine aspects of being provides a unique opportunity for spiritual growth and lasting happiness soon you will revel in a new appreciation of your body the mortal aspect see through the illusion of the me story the inner ego aspect converse from love rather than the ego the outer ego aspect lose the fear of death the soul aspect transcend your self boundaries and experience oneness with the world the witness aspect awaken to cosmic consciousness the mystic aspect live both in the world and of it the self aspect transcend the paradox of unity and separation without conflict

or excuse the i am aspect live in a state of divine union while still maintaining your individuality the taogod i aspect the smart have their theories but the wise have their scars most books on enlightenment are like diet books they promise fantastic results but they rarely deliver why because simple solutions all you have to do is drop your self seldom work with complex problems what exactly is this self anyway what if instead of the typical all or nothing approach you re either enlightened or you re not we break the sense of self into smaller easier to work with aspects instead of struggling to drop a stubborn and tenacious ego all at once we allow it to fade away one step at a time as the ego gently fades as we become less self boundaries collapse and enlightenment is realized but enlightenment is probably not what you think it is it isn't the feeling of oneness with the world that is a result of enlightenment it isn't the feeling of bliss that too is a result it isn't the loss of the me story that's another result of it wonderful results for sure but focusing on results instead of the cause is why most nondual teachings fail in early 2016 we found out exactly what enlightenment was as it turns out enlightenment like playing a musical instrument is a skill anyone can learn but it doesn't stop there the witness aspect enlightenment is only one of the nine aspects revealed in this all new approach to spiritual awakening rarely discussed in spiritual texts is what life is like on the other side of enlightenment when the ego dissolves as enlightenment is realized vast new realms open up before the spiritual seeker realms filled with love and unity of the self and the divine of the absolute and the relative realms where cosmic consciousness awakens while individual consciousness continues these are realms filled with paradoxes and profound truths realms which until now few have ever reached and even fewer have learned to navigate mystical oneness and the nine aspects of being provides over three dozen practices specifically tailored to open both your mind and your heart practices which will help unify your many disparate parts the personal and the impersonal the rational and the mystical the individual and the divine into a whole and integrated you simply put mystical oneness and the nine aspects of being is a step by step guide to enlightenment and beyond

i ve tried to strike a balance between certain concepts around awakening and the direct experience of awakening concepts are helpful but they can only point to the truth they are not the truth in and of themselves words like spirituality transformation humanity and meditation can help us draw a map of the journey to awakening and that map can help shorten the journey by minimizing distractions and wrong turns but no words can convey the actual experience of enlightenment by own

the premise for this book is based upon a biblical quote that says ask and it will be given to you seek and you will find knock and the doors will be opened to you if you seek spiritual wisdom it will be drawn to you that is simply how the spiritual universe works god wants to give us all we need in order to accomplish our earthly missions but in order to acquire what he has we must become the seeker this book lays out a path toward spiritual enlightenment it proposes an action plan and suggests methods and principles the reader can relate to and follow if that is what they desire it is for people

are you drifting in time from past to future with little reality in between have you realized the essence of who you truly are or is your mind still holding you hostage does the past weigh heavily on your heart does the so called future occupy most of your attention do you use your mind or does it use you do you really begin at birth and end at death from the very start to its final pages this groundbreaking book is designed to spark a spiritual awakening the question is are you ready for it or will your ego the false mind made self stop you along the way

your true self is the one divine awareness my most passionate teaching offers you the idea that you exist in the most fundamental way as pure awareness as the open capacity for experience we have all heard it said that you are not a human being having a spiritual experience but instead you are a spiritual being having a human experience while that shift in understanding is of course very important there is still a deeper wisdom in truth you are not a being of any kind physical or spiritual you are pure awareness and most importantly this awareness is the divine awareness the only reality that was not created this divine awareness is the source of all of creation and it is the only witness to it this is your true fundamental self and this source awareness is

looking out of your eyes right now by fundamental self i mean what you are when stripped of everything that is not essential to what you really are although you are fundamentally only pure formless transcendent awareness through the mystery of creation you arise as the totality of created reality all form and you experience your life from the perspective of your own personal self in this way the one self arises as all apparent selves this is how the one becomes the many the intuitive recognition of this is what creates tremendous love and compassion for everyone you are inspired to engage in life in a wholesome unselfish way and to make the world a better place as seen from the perspective of our ordinary world the deep intuitive recognition of your true self is one of the core aspects of enlightenment the other aspect is the ability to unselfishly flow in harmony with all that life brings forth this book will help you become more skillful in the art of love and acceptance and in doing so you will more easily experience a deep and lasting personal peace yet you were not created just to sit still in a state of peaceful acceptance you are here to joyfully and fearlessly dive head first into your life in your own unique way many of us have heard the phrase you create your own reality but this does not mean that the universe is your personal mail order catalog simply waiting for you to clearly make up your mind and place your order if you are open to a deeper understanding of that phrase then you are ready to make some real progress this is about removing blockages not pursuing specific outer circumstances when you release your limiting beliefs about yourself the world and how you fit into it you will be free to put your values of kindness and compassion spontaneously into action with an aliveness that cannot be matched so what do you think are you inspired to learn more about the paradox of enlightenment if so this book just might offer you the clarity you have been looking for second edition april 2017 revised november 2017
