for introductory psychology courses at two and four year institutions think currency think relevancy think psychology think psychology 2 e covers the essentials every introductory psychology student should know the chapters are briefer than a standard introductory text allowing for a lower cost to students and using less printed paper unlike other brief texts think psychology includes 18 chapters of content giving instructors the flexibility to choose what they want to cover without the worry that skipping several chapters will mean leaving out hundreds of pages of content think psychology 2 e provides currency and relevance through design current examples and high interest readings the readings have been chosen from a range of well respected journals and popular press publications with the concise presentation of material in the chapters instructors have the option of incorporating these readings and helping students connect to issues occurring outside of the classroom an engaging visual design developed with the benefit of extensive student feedback will appeal to students and deliver the key concepts of psychology in a way they can understand the groundbreaking instructor supplements package will help bring the key concepts of psychology to life without the burden of too dense and too expensive teaching solutions thethinkspot com the text s open access website provides students with a large number of of tools to help them achieve a better grade

cultural politics in harry potter life death and the politics of fear is the first book length analysis of topics such as death fear and biopolitics in j k rowling s work from controversial and interdisciplinary perspectives this collection brings together recent theoretical and applied cultural studies and focuses on three key areas of inquiry 1 wizarding biopolitics and intersected discourses 2 anxiety death resilience and trauma and 3 the politics of fear and postmodern transformations as such this book provides a comprehensive overview of national and gender discourses as well as the transiting bodies in between in relation to the harry potter

books series and related multimedia franchise situates the transformative power of death within the fandom transmedia and film depictions of the potterverse and critically deconstructs the processes of subjectivation and legitimation of death and fear examines the strategies and mechanisms through which cultural and political processes are managed as well as reminding us how fiction and reality intersect at junctions such as terrorism homonationalism materialism capitalism posthumanism and technology exploring precisely what is cultural about wizarding politics and what is political about culture this book is key reading for students of contemporary literature media and culture as well as anyone with an interest in the fictional universe and wizarding world of harry potter

never before in the history of humanity have so many people lived to be so very old throughout our past a few individuals might have made it to old age but mass aging is a new concept for the human species

while there are far more women in public office today than in previous eras women are still vastly underrepresented in this area relative to men conventional wisdom suggests that a key reason is because female candidates start out at a disadvantage with the public compared to male candidates and then face higher standards for their behavior and qualifications as they campaign he runs she runs is the first comprehensive study of these dynamics and demonstrates that the conventional wisdom is wrong with rich contextual background and a wealth of findings deborah jordan brooks examines whether various behaviors such as crying acting tough displays of anger or knowledge gaffes by male and female political candidates are regarded differently by the public refuting the idea of double standards in campaigns brooks s overall analysis indicates that female candidates do not get penalized disproportionately for various behaviors nor do they face any double bind regarding femininity and toughness brooks also reveals that before campaigning begins women do not start out at a disadvantage due to gender stereotypes in fact brooks shows that people only make gendered assumptions about candidates who are new to politics and those stereotypes benefit rather than hurt women candidates proving that it is no more challenging for female political candidates today to win over the public than it is for their male counterparts he runs she runs makes clear that we need to look beyond public attitudes to understand why more women are not in office

the consequences of humiliation explores the nature of national humiliation and its impact on foreign policy joslyn barnhart demonstrates that germany s catastrophic reaction to humiliation at the end of world war i is part of a broader pattern states that experience humiliating events are more likely to engage in international aggression aimed at restoring the state s image in its own eyes and in the eyes of others barnhart shows that these states also pursue conquest intervene in the affairs of other states engage in diplomatic hostility and verbal discord and pursue advanced weaponry and other symbols of national resurgence at higher rates than non humiliated states in similar foreign policy contexts her examination of how national humiliation functions at the individual level explores leaders domestic incentives to evoke a sense of national humiliation as a result of humiliation on this level the effects may persist for decades if not centuries following the original humiliating event

this modules based version of myers best selling full length text psychology breaks down the book s 16 chapters into 54 short modules myers was inspired to create this text by the memory research in chunking showing that shorter reading assignments are more effectively absorbed than longer ones as well as by numerous students and teachers who expressed a strong preference for textbooks with more shorter chapters
