this innovative book explores what sociologists gain by treating temporality seriously what we learn from placing social relations and events in historical context in a series of chapters readers will see how historical sociologists have addressed the origins of capitalism revolutions and social movements empires and states inequality gender and culture the goal is not to present a comprehensive history of historical sociology rather readers will encounter analyses of exemplary works and see how authors engaged past debates and

their contemporaries in sociology history and other disciplines to advance our understanding of how societies are created and remade across time pub desc

states over the past 500 years have become the dominant institutions on earth exercising vast and varied authority over the economic well being health welfare and very lives of their citizens this concise and engaging book explains how power became centralized in states at the expense of the myriad of other polities that had battled one another over previous millennia richard lachmann traces the contested and historically contingent struggles by which subjects began to see themselves as citizens of nations and came to associate their interests and identities with states and explains why the civil rights and benefits they achieved and the taxes and military service they in turn rendered to their nations varied so much looking forward lachmann examines the future in store for states will they gain or lose strength as they are buffeted by globalization terrorism economic crisis and environmental disaster this stimulating book offers a comprehensive evaluation of the social science literature that addresses these issues and situates the state at the center of the world history of capitalism nationalism and democracy it will be essential reading for scholars and students across the social and political sciences

why great powers decline from spain to the united states the extent and irreversibility of us decline is becoming ever more obvious as america loses war after war and as one industry after another loses its technological edge lachmann explains why the united states will not be able to sustain its global dominance and contrasts america's relatively brief period of hegemony with the netherlands similarly short primacy and britain's far longer era of leadership decline in all those cases was not inevitable and did not respond to global capitalist cycles rather decline is the product of elites success in grabbing control over resources and governmental powers not only are ordinary people harmed but also capitalists become increasingly unable to coordinate their interests and adopt policies and make investments necessary to counter economic and geopolitical competitors elsewhere in the world conflicts among elites and challenges by non elites determine the timing and mold the contours of decline lachmann traces the transformation of us politics from an era of elite consensus to present day paralysis combined with neoliberal plunder explains the paradox of an american military with an unprecedented technological edge unable to subdue even the weakest enemies and the consequences of finance's cannibalization of the us economy

in the undevelopment of capitalism emigh argues that the expansion of the florentine economic market in the fifteenth century helped to undo the development of markets of other economies especially the rural economy of

tuscany as this highly developed urban market penetrated rural regions it actually erased rural market institutions that rural inhabitants had used to organize agricultural production and family life thus an advanced economy at the time of the late middle ages and early renaissance undeveloped over time the economic development of this region in italy was delayed as it failed to keep pace with the rest of europe using a negative case methodology to show how urban and rural markets change emigh employs methods of historical sociology and sectoral theories to examine how markets can prosper and suffer at the same time she shows how sectoral relations are crucial to transitions to capitalism and how capitalist development can also contract markets

richard lachmann offers new answers to the old question of how england became the first nation to undergo the transition from feudalism to capitalism lachmann identifies conflicts among elites within the feudal ruling class rather than conflicts between classes as the primary dynamic within the feudal system that accounted for the timing and direction of structural change his original research and analysis should be of interest to sociologists political scientists historians and others concerned with english history peasant studies and economic history
