there is more to the human origins development intelligence and civilization than the epic debate creationism versus evolution simply because there is more to the human condition than what authorities and ideologies want you to believe therefore when you study the human origins you have to search beyond the moment when the first humans had detached from the firmament or previous species since there are other significant events in humanity's lifespan and achievement defining its specific timeline while you have to study everything otherwise you risk understanding these significant events only from simplistic empirical or ideological perspectives ending up learning what you already know while following the crowd throughout unending debates since you want the accurate truth because you already know all theories beliefs speculations and debates regarding the human origins and this is why when you study the human origins you expect to understand everything about the origins of life the nature and origins of this world the nature of the human higher self and intelligence the origins and debut of the human consciousness and human intelligent reasoning along with all details related to the creator of this entire world of life and of humanity additionally it is relevant to know how all these affect you personally and how they affect your family your genetic line and your nation how your family and genetic line originate where and how it happened under what circumstances and with what status and privileges for you for your family for your nation and for the humankind and this is exactly what we cover throughout this book in all details and from all perspectives this book studies the human origins along with the origins of life human intelligence human species human development human society human current civilization along with various past civilizations of earth integrating humans their origins and their original and current conditions in an elaborate comprehensive model

in 18th century germany philosophers were occupied with questions of who we are and what we should be can the individual fulfill its vocation or is this possible only for humanity as a whole is significant progress towards perfection in any way possible for me or just for me as part of humanity by following the origin and nature of these debates this collection sheds light on the vocation of humanity in early german philosophy featuring translations of spalding's contemplation on the vocation of the human being in its first version from 1748 and an extended translation of abbt's and mendelssohn's epistolary discussion around the doubts and the oracle from 1767 newly commissioned chapters cover johann gottfried herder's inherently cultural concept of the human being immanuel kant's transformative interplay of moral and natural aspects and the notion of metempsychosis in fichte's work inspired by two neglected philosophers gotthold ephraim lessing and johann georg schlosser opening further lines of inquiry contributors address questions about the adaptations of spalding's work that focus on the vocation of women as wife mother or citizen exploring the multitude of ways 18th century german thinkers understand our position in the world this volume captures major changes in metaphysics and anthropology and enriches current debates within modern philosophy

the human figure is one of the earliest topics drawn by the young child and remains popular throughout childhood and into adolescence when it first

emerges however the human figure in the child s drawing is very bizarre it appears to have no torso and its arms if indeed it has any are attached to its head even when the figure begins to look more conventional the child must still contend with a variety of problems for instance how to draw the head and body in the right proportions and how to draw the figure in action in this book maureen cox traces the development of the human form in children s drawings she reviews the literature in the field criticises a number of major theories which purport to explain the developing child s drawing skills and also presents new data

in the problem of the idea of culture in john paul ii exposing the disruptive agency of the philosophy of karol wojtyla john corrigan provides a new lens with which to view and understand the philosophy of karol wojtyla john paul ii he exposes wojtyla as a major player in contemporary philosophical debates the work reformulates the problem of experience in light of the questions surrounding our idea of culture corrigan argues that for wojtyla the drama of the problem of experience manifests in the apparently divergent accounts of the meaning of human experience as presented by the philosophies of being and of consciousness solving this conundrum results in an idea of the person capable of explaining human experience in relation to human culture unfolding the experiences of self knowledge conscience and the ontic causal relationship of the person to human culture the first part of the book concerns formal considerations regarding the constitutive aspects of wojtyla s approach while the second part deals with pragmatic considerations drawn from his comments on culture
