detention operations are vital to u s military doctrine and crucial to the success of combat and recovery missions this book shows that the image of abuse from abu ghraib were but one small harmful element in an overwhelmingly successful detention mission in iraq it focuses on the subsequent developments and successes explaining the standard rule of law approach taken by the u s military and examining the work in iraq of such leaders as major general john d gardner and major general douglas m stone overall the text moves away from the abu ghraib scandal to illuminate a largely unknown successful development in the u s detention operations following the abu ghraib scandal of 2003 2004 the u s department of defense scrambled to recover its reputation and that of its troops as the bush administration sought to redefine torture military judge advocates consistently challenged such moves arguing in favor of the geneva conventions humanitarian practices by 2006 department of defense policy stipulated full respect for and use of the geneva conventions this development was indeed a victory for american support for rule of law in iraq as well as an affirmation of standard practices in the detention command task force 134 pressures of war however continued to present their own challenges

the object of this book is to present in a direct and simple way the leading events in the life of preston b plumb it has however a higher purpose than the mere exaltation of any name a book which does not render service to society is worse than useless interwoven there will be found something here of pioneer life the founding of a great state the passing of the old order a change in the destiny of the republic the coming of a new era and teh influence of these on our industrial and political life there will appear visions of the sword shaken over the land and we shall see marches over the red roads of the ozarks on the prairies through the rolling woodlands of missouri across the great plains and in the rocky mountains there will arise to view the shock of battle the dead and dying on bloody fields the crime and glory of war an iridescent phantasmagoria of the baseness and sublimity of human passions and human actions these are some of the reasons for this book it is hoped that others will appear in its reading of senator plumb it must be said that he was a peculiar man he was emotional and sympathetic capable of friendship pioneer influences shaped plumb s life and developed his intellect he was an intense and independent
