steven m gillon historian and new york times bestselling author is back with the story of how wwii shaped the

characters and politics of seven american presidents world war ii loomed over the latter half of the twentieth century transforming every level of american society and international relationships and searing itself onto the psyche of an entire generation including that of seven american presidents dwight d eisenhower john f kennedy lyndon b johnson richard nixon gerald ford ronald reagan and george h w bush the lessons of world war ii more than party affiliation or ideology defined the presidencies of these seven men they returned home determined to confront any force that threatened to undermine the war s hard won ideals each with their own unique understanding of patriotism sacrifice and america s role in global politics in presidents at war gillon examines what these men took away from the war and how they then applied it to cold war policies that proceeded to change america and the world forever a nuanced and deeply researched exploration of the lives philosophies and legacies of seven remarkable men presidents at war deftly argues that the lessons learned by these postwar presidents continue to shape the landscape upon which current and future presidents stand today

science fiction cinema once relegated to the undervalued b movie slot has become one of the dominant film genres of the 21st century with hollywood alone producing more than 400 science fiction films annually many of these owe a great deal of their success to the films of one defining decade the 1950s essays in this book explore how classic 50s science fiction films have been recycled repurposed and reused in the decades since their release tropes from don siegel s invasion of the body snatchers 1956 for instance have found surprising new life in netflix s wildly popular stranger things interstellar 2014 and arrival 2016 have clear though indirect roots in the iconic 1950s science fictions films rocketship x m 1950 and the day the earth stood still 1951 and the shape of water 2017 openly recalls and reworks the major premises of the creature from the black lagoon 1954 essays also cover 1950 s sci fi influences on video game franchises like fallout bioshock and wolfenstein

this book examines mohism as a movement in early china focusing on the mohists pursuit of power fashioning themselves as grassroots activists the mohists hoped to impact the elite by gaining entry in its community and influencing it from within to create a less violent world they deployed strategies of persuasion and negotiation but did not discard counterviolence in their dealings with the ruling class in executing their activism the mohists produced knowledge that allowed them to hone their nonviolent strategies as well as to mount armed resistance to aggression in addition the mohists paid significant attention to the issue of personhood constructing a self cultivation tradition unsparing in its demands for overcoming human conditions that would impede their

performance as activists this book situates mohism in the history of nonviolent activism and in that of negotiation and conflict resolution

this is a companion transcript of the audio series beyond the phoenix project intended to be used for reference and to enable further research of cited material and not as a standalone work in the audio series gene kim and john willis present a nine part discussion that includes an oral history of the devops movement as well as discussions around pivotal figures and philosophies that devops draws upon from goldratt to deming from lean to safety culture to learning organizations the book is a great way for listeners to take an even deeper dive into topics relevant to devops and leading technology organizations

the history of nasa s apollo program from earth orbital missions to lunar landings in a propulsive nonfiction narrative only now it is becoming clear how exceptional and unrepeatable apollo was at its height it employed almost half a million people many working seven days a week and each determined that it will not fail because of me beginning with fighter pilots in world war ii maurer traces the origins of the apollo program to a few exceptional soldiers a nazi engineer and a young eager man who would become president packed with adventure new stories about familiar people and undeniable danger destination moon takes an unflinching look at a tumultuous time in american history told expertly by nonfiction author richard maurer

this volume is the first to showcase the interdisciplinary nature of terror management theory providing a detailed overview of how rich and diverse the field has become since the late 1980s and where it is going in the future it offers perspectives from psychology political science communication health sociology business marketing and cultural studies among others and in the process reveals how our existential ponderings permeate our behavior in almost every area of our lives it will interest a wide range of upper level students and researchers who want an overview of past and current tmt research and how it may be applied to their own research interests

includes articles and reviews covering all aspects of american history formerly the mississippi valley historical review
