the international handbook of research in professional and practice based learning discusses what constitutes professionalism examines the concepts and practices of professional and practice based learning including associated research traditions and educational provisions it also explores professional learning in institutions of higher and vocational education as well the practice settings where professionals work and learn focusing on both initial and ongoing development and how that learning is assessed the handbook features research from expert contributors in education studies of the professions and accounts of research methodologies from a range of informing disciplines it is organized in two parts the first part sets out conceptions of professionalism at work how professions work and learning can be understood and examines the kinds of institutional practices organized for developing occupational capacities the second part focuses on procedural issues associated with learning for and through professional practice and how assessment of professional capacities might progress the key premise of this handbook is that during both initial and ongoing professional development individual learning processes are influenced and shaped through their professional environment and practices moreover in turn the practice and processes of learning through practice are shaped by their development all of which are required to be understood through a range of research orientations methods and findings this handbook will appeal to academics working in fields of professional practice including those who are concerned about developing these capacities in their students in addition students and research students will also find this handbook a key reference resource to the field

bachelor thesis from the year 2016 in the subject art arts management grade 3 58 hawassa university course management language english abstract in order to be highly productive and being successful in any operation is somewhat a difficult task unless conflict is managed carefully in the organization therefore the main reason of

conducting this research is to find out the sources of conflict to identify conflict resolution techniques and to know the positive and negative outcomes of conflict in the organization among the factors that accounted for the existence of conflict in the organization perpetual difference value difference modern technology and personality clashes were the most important the effort of management to understand the existing conflict in the organization is low which implies the weakness of management of the organization in handling conflict in general undertaking conflict and assessing conflict management practice is important task for the reduction of problems which exist in the organization
