a lively and engaging narrative history showing the common threads in the cultures that gave birth to our own this is the first volume in a bold series that tells the stories of all peoples connecting historical events from europe to the middle east to the far coast of china while still giving weight to the characteristics of each country susan wise bauer provides both sweeping scope and vivid attention to the individual lives that give flesh to abstract assertions about human history dozens of maps provide a clear geography of great events while timelines give the reader an ongoing sense of the passage of years and cultural interconnection this old fashioned narrative history employs the methods of history from beneath literature epic traditions private letters and accounts to connect kings and leaders with the lives of those they ruled the result is an engrossing tapestry of human behavior from which we may draw conclusions about the direction of world

events and the causes behind them

a bold and imaginative page turner that challenges ideas about the world of antiquity
peter frankopan the silk roads this vivid and engaging book brings to life some of the most important moments in ancient history moments that have shaped not only the politics and culture of bygone eras but the institutions thoughts and fantasies of our time
yuval noah harari sapiens as panoramic as it is learned this is ancient history for our globalised world
tom holland dynasty rubicon acclaimed historian and tv presenter
michael scott guides us through an epic story spanning ten centuries to create a bold new reading of the classical era for our globalised world scott challenges our traditionally western focused perception of the past connecting greco roman civilisation to the great rulers and empires that swept across central asia to india and china resulting in a truly global vision of ancient history with stunning range and richness
ancient worlds illustrates how the great powers and characters of antiquity shared ambitions and crises ways of thinking and forms of governing connections that only grew stronger over the centuries as political systems evolved mighty armies clashed universal religions were born and our modern world was foreshadowed
scott focuses on three epochal moments across the ancient globe and their profound wider significance from 509 8 bce birth of athenian democracy and rome s republic also the age of confucius s teachings in china to 218 bce when hannibal of carthage challenged rome and china saw its first emperor to 312 ce when constantine sought to impose christianity on the roman world even as buddhism was pervading china via the vast trading routes we now know as the silk roads
a major work of global history michael scott s enthralling journey challenges the way we think about our past re draws the map of the classical age to reveal its hidden connections and shows us how ancient history has lessons for our own times

from one of today s most innovative ancient historians a provocative new vision of why ancient history matters and why it needs to be told in a radically different global way it s easy to think that ancient history is well ancient history obsolete irrelevant unjustifiably focused on greece and rome and at risk of extinction in what is ancient history
walter scheidel presents a compelling case for a new kind of ancient history a global history that captures antiquity s pivotal role as a decisive phase in human development one that

provided the shared foundation of our world and continues to shape our lives today for scheidel ancient history is when the earliest versions of today's ways of life were created and spread from farming mining and engineering to housing and transportation cities and government writing and belief systems transforming the planet this process unfolded all over the world in eurasia africa and the americas often at different times sometimes haltingly but ultimately unstoppably yet it's rarely studied or taught that way since the eighteenth century western intellectuals have dismembered the ancient world driven not only by their quest for professional expertise but also by nationalism colonialism racism and the idealization of greece and rome specialized scholarship has fractured into numerous academic niches obscuring broader patterns and dynamics and keeping us from understanding just how much humanity has long had in common the time has come scheidel argues to put the ancient world back together by moving beyond the limitations of greco roman classics by systematically comparing ancient societies and by exploring early exchanges and connections between them the time has come in other words for an ancient history for everyone

this primary source reader covers the entire span of ancient history providing helpful editorial material and carefully selected sources to promote student learning the selections in this text encourage critical thinking through an examination of parallel developments across ancient civilizations during the same historical periods

examines the linguistic relativity principle in relation to the hupa yurok and karuk indians despite centuries of intertribal contact the american indian peoples of northwestern california have continued to speak a variety of distinct languages at the same time they have come to embrace a common way of life based on salmon fishing and shared religious practices in this thought provoking re examination of the hypothesis of linguistic relativity sean o neill looks closely at the hupa yurok and karuk peoples to explore the striking juxtaposition between linguistic diversity and relative cultural uniformity among their communities o neill examines intertribal contact multilingualism storytelling and historical change among the three tribes focusing on the traditional culture of the region as it existed during the late nineteenth and early twentieth centuries he asks important historical questions at the heart of the linguistic relativity hypothesis have the languages in

fact grown more similar as a result of contact multilingualism and cultural convergence or have they instead maintained some of their striking grammatical and semantic differences through comparison of the three languages o neill shows that long term contact among the tribes intensified their linguistic differences creating unique hupa yurok and karuk identities if language encapsulates worldview as the principle of linguistic relativity suggests then this region s linguistic diversity is puzzling analyzing patterns of linguistic accommodation as seen in the semantics of space and time grammatical classification and specialized cultural vocabularies o neill resolves the apparent paradox by assessing long term effects of contact
