this book fills a need for a technological guide in a field that has experienced an almost explosive increase in the last two decades no other book available to food scientists provides detailed coverage of the ingredients processes products and equipment of nearly every type of snack food made today since publication of the

first edition many changes have occurred in the snack industry making necessary a thorough revision of all chapters the text illustrations and bibliographies have all been brought up to date my goal has been to provide an accurate and reasonably detailed description of every major snack processing method and product current in the united states if any reader believes i have omitted an important topic i would be glad to learn of it in the hope that there will be a third edition in which i can incorporate the suggested additions one of the main purposes of this volume is to provide a source for answers to problems that the technologist encounters in the course of his or her daily work extensive bibliographies in which the emphasis is on recent publications extending into 1983 should permit the reader to resolve more complex or new questions with these bibliographies as guides the food technologist can delve as deeply as he or she wishes into specialized aspects of the subject while at the same time the reader who is interested in the broad overall picture will not be distracted by excess detail

rather than containing for the most part fairly detailed food science and technology intended for daily use and reference by food scientists and technologists this book is designed for use by a much wider range of readers concerned with a particular and rapidly expanding area of food production promotion marketing and packaging a certain amount of basic detail is provided to enable relatively rough estimates of the production methods and packaging facilities necessary to enable new or improved items to be made but the overall emphasis is on the wide range of food products that can now quite legitimately be regarded as coming within the broad definition of foods used as snacks as contrasted with main meals thus we start with the basic requirements to be met in a snack food whatever its nature and follow with the great variety of items nowadays used 31 snacks or as adjuvants to snacks concluding with an assessment of nutritional consequences of the growth of snacking or browsing and with the special packaging requirements of snack foods

the main purpose of this booklet is to create awareness about the multitude of opportunities that street and snack foods can provide for small scale farmers in rural peri urban and urban areas moreover street and snack foods have positive effects on other member of the supply chain as well as poor consumers in rural peri urban and urban communities it is hoped that policy makers and development personnel recognize such opportunities and provide a supporting and enabling environment for such a livelihood strategy to be pursued p 9

revised and updated with the latest epidemiologic research the second edition of life cycle nutrition an evidence based approach explores nutritional foundations and

the growth development and normal functioning of individuals through each stage of life with subjects as diverse as media influences on eating skipping breakfast fruit juice consumption and clinical nutrition this text gives students current knowledge helps them evaluate emerging knowledge and prepares them to uncover new knowledge for the public their clients and themselves the second edition takes a topical multi disciplinary approach to the physiological biochemical sociological and developmental factors that affect nutrient requirements and recommendations at the various stages of the life cycle the issues surrounding topics such as chronic disease in adults are discussed throughout the adult stage this approach makes it easier for students to relate nutrition concepts and epidemiologic research to the stages of life

this book investigates the intersection of christian faith and entrepreneurship in the global marketplace through empirical micro level research on various christian based firms in north and central america asia europe and africa it features diverse cross cultural cases ranging from small family businesses to large enterprises and covers multiple industries and regions the book attempts to answer this research question how do christian faith and entrepreneurship converge in the marketplace through a comparative cross cultural case analysis the work identifies thematic categories of christian faith based entrepreneurship extending and integrating the two conceptual areas of faith and entrepreneurship from a christian worldview with a judeo christian heritage the selected cases this book explored enhanced the emergent model of faith based entrepreneurship applicable across faith based organization types and regions this book also provides significant empirical and theoretical contributions to faith based entrepreneurship offering new research areas for the future research paradigm the cases in this book delve into topics such as faith and women entrepreneurship religion spirituality and social entrepreneurship faith and family entrepreneurship and good practices of entrepreneurship in line with the latest trends in the field and will be of interest to all students and researchers in entrepreneurship

this case study provides an account of asada s multiple case study dissertation study which focused on the implementation process of snack food policies in high schools while most dissertations are conducted independently asada had the fortune of a colleague doctoral student kimberly garza who joined the study during data collection and early analysis phase as part of a doctoral level qualitative analysis class in this case study we outline methodological issues that arose throughout study design and implementation issues that we had not anticipated as novice researchers and the unexpected challenges and rewards of team data

analysis

rates of childhood obesity are alarmingly high and increasing each year studies have shown that obese children are more likely to become obese adults and are likely to suffer with numerous health consequences like coronary heart disease high blood pressure and type ii diabetes among others studies also indicate that television viewing and exposure to advertising for food products influences children s attitudes toward food preferences and food purchase requests for foods with low nutritional value it is important to better understand the role of media in childhood obesity and to learn how media may be used to address this issue in a positive way this book focuses on communication and media research that can have an impact on reducing childhood obesity emphasis is placed on topics related to how the media communicate health related messages about food nutrition and diet that influence childhood obesity particular emphasis is on the new media given the fact that media now have more central roles in socializing today s children and youth than ever before advertising and marketing messages reach young consumers through a variety of vehicles broadcast and cable television radio magazines computers through the internet music cell phones and in many different venues homes schools child care settings grocery stores shopping malls theaters sporting events and even airports in addition given the disparity in obesity rates between children of color and the general population special attention is given to research on media targeting these populations
