south asia is home to a large number of languages and dialects although linguists working on this region have made significant contributions to our understanding of language society and language in society on a global scale there is as yet no recognized international forum for the exchange of ideas amongst linguists working on south asia the annual review of south asian languages and linguistics is designed to be just that forum it brings together empirical and theoretical research and serves as a testing ground for the articulation of new ideas and approaches which may be grounded in a study of south asian languages but which have universal applicability each volume will have three major sections i invited contributions consisting of state of the art essays on research in south asian languages ii refereed open submissions focusing on relevant issues and providing various viewpoints iii reports from around the world book reviews and abstracts of doctoral theses

this work presents a collection of some 130 contributions covering a wide range of topics of interest to historical theoretical and applied linguistics alike a major theme is the development of english which is examined on several levels in the light of recent linguistic theory in various papers the geographical dimension is also treated extensively with papers on controversial aspects of a variety of studies as are topical linguistic matters from a more general perspective

research on the interplay between language structure and language use has shown that grammar is shaped maintained and modified by language use in this view then grammar is not seen as existing apart from language use but rather as a set of recurrent grammaticalized patterns of discourse this book focuses on syntactic structuring in finnish from the viewpoint of language use the author sets out to study syntactic structures in their local contexts in order to discover the more global patterns and constraints on the use of these structures the coding strategies point to the clause

core as the locus of syntactic structuring this is where syntactic relations emerge most clearly it is shown that the key to understanding the coding of the core syntactic relations is the category of person the clause core also shows strong intonational unity as it is most often presented in one intonation unit furthermore analysis of spoken discourse shows the robustness of the category of noun phrase both as a clausal constituent and as a free syntactic unit the free np

this book is a detailed examination of social connections to language evaluation with a specific focus on the values associated with both prescriptivism and descriptivism the chapters written by authors from many different linguistic and national backgrounds use a variety of approaches and methods to discuss values in linguistic prescriptivism in particular the chapters break down the traditional binary approaches that characterize prescriptive discourse to create a view of the complex phenomena associated with prescriptivism and the values of those who practice it most importantly this volume continues serious academic conversations about prescriptivism and lays the foundation for continued exploration
