legendary figures examines revolutionary views of the past that have played a crucial role in european and american literature of the last 150 years clayton koelb traces these new approaches to history through an impressive range of novels øfrom flaubert s salammbo to christa wolf s cassandra koelb argues that this new historical sense which arose in the mid nineteenth century

gained eloquent expression in flaubert's writings what is crucial about the new historical sense is that it views the past as essentially alien and other the connection between past and present may be powerful but it is always indirect and difficult to negotiate as a result the past seems exotic and unattainable the object of nostalgia and desire koelb distinguishes this sense of history with its persistent discontinuities between past and present from the more continuous and progressive views of history of novelists like sir walter scott and such philosophers as hegel marx and lukács in their writings history proceeds according to the laws of cause and effect and each epoch can be understood as both the result of the previous one and the cause of the next in contrast the modernist writers that koelb examines flaubert pater mann broch wilder yourcenar and wolf imagine a past that is mythic and legendary and thus a metaphor for everything distant complicated unattainable and unknowable
