the shaping of french national identity casts new light on the intellectual origins of the dominant and official french nineteenth century national narrative focussing on the historical debates taking place throughout the eighteenth century and during the restoration matthew d auria evokes a time when the nation s origins were being questioned and discussed and when they acquired the meaning later enshrined in the official rhetoric of the third republic he examines how french writers and scholars reshaped the myths symbols and memories of pre modern communities engaging with the myth of our ancestors the gauls and its ideological triumph over the competing myth of our ancestors the franks this study explores the ways in which the struggle developed

and the values that the two discourses enshrined the collective actors they portrayed and the memories they evoked d auria draws attention to the continuity between ethnic discourses and national narratives and to the competition between various groups in their claims to represent the nation and to define their past as the true history of france

les lieux de memoire is perhaps one of the most profound historical documents on the history and culture of the french nation assembled by pierre nora during the mitterand years this multivolume series has been hailed as a magnificent achievement the new republic and the grandest most ambitious effort to dissect interpret and celebrate the french fascination with their own past the los angeles times written during a time when french national identity was undergoing a pivotal change and the nation was struggling to define itself this unprecedented series consists of essays by prominent historians and cultural commentators which take as their points of departure a lieu de memoire a site of memory used to order concentrate and secure notions of france s past the first volume in the chicago translation rethinking france brings together works addressing the omnipresent role of the state in french life as in the other volumes the lieux de memoire serve as entries into the french past whether they are actual sites political traditions rituals or even national pastimes and textbooks volume i the state offers a sophisticated and engaging view of the french and their past through widely diverse essays on for example the château of versailles and the french history of absolutism the code civil and its ordering of french life memoirs written by french statesmen and charlemagne and his place in french history nora s authors constitute a who s who of french academia yet they wear their erudition lightly taken as a whole this extraordinary series documents how the french have come to see themselves and why contributors alain guery maurice agulhon bernard guenee daniel nordman robert morrissey alain boureau anne marie lecoq helene himelfarb jean carbonnier herve le bras pierre nora publisher description

the encyclopedia of historians and historical writing contains over 800 entries ranging from lord acton and anna comnena to howard zinn and from herodotus to simon schama over 300 contributors from around the world have composed critical assessments of historians from the beginning of historical writing to the present day including individuals from related disciplines like jürgen habermas and clifford geertz whose theoretical contributions have informed historical debate additionally the encyclopedia includes some 200 essays treating the development of national regional and topical historiographies from the ancient near east to the history of sexuality in addition to the western tradition it includes substantial assessments of african asian and latin american historians and debates on gender and subaltern studies

since its development in 1949 radiocarbon dating has increasingly been used in prehistoric research in order to get a better grip on the chronology of sites cultures and environmental changes refinement of the dating sampling and calibration methods has continuously created new and challenging perspectives for absolute dating in these proceedings the focus lies on the contribution of carbon 14 dates in current mesolithic research in north west europe altogether 40 papers dealing with radiocarbon dates from 15 different countries are presented major themes are the typo technological evolution of lithic and bone industries changes in settlement patterns burial practices demography and subsistence human impact on the mesolithic environment and the neolithisation process some papers also deal with more methodological aspects of carbon 14 dating e g calculation of various reservoir effects the use of cumulative calibrated probability distributions and related techniques e g stable isotope analysis for palaeodiet reconstruction
