each morning i would strike out for this temple of learning in the crisp autumn air with a sense of purpose and the conviction that this was where i belonged marilyn stasio from my research project inspired partly by richard altick s the scholar adventurers the thirteen writers in curiosity s cats offer powerful arguments for the value of hands on research be it chasing documents cracking mysteries interviewing long lost subjects or visiting exotic and not so exotic locales alberto martinez explains how diligence with dates can provide clues to unlock the most difficult historical puzzles jan reid explores the difference between research for an epic novel and research to write the epic biography of a friend margot livesey suspects that she continues to write novels simply to do the research but every essay testifies to the fact that research is valuable not only because of the product that may result from it but because the process itself fulfills a basic human need contributors include philip j anderson annette kolodny theodore kornweibel jr margot livesey alberto a martinez bruce joshua miller katherine hall page jan reid ali selim marilyn stasio ned stuckey french bruce white and steve yates bruce joshua miller has edited two books and written for public radio the chicago tribune and other publications he has worked in the book industry for thirty five years

interest in and knowledge of the techniques utilised to investigate our solar system has been growing rapidly for decades and has now reached a stage of maturity therefore the time has now arrived for a book that provides a cohesive and coherent account of how we have obtained our present knowledge of solar system objects not including the sun remote and robotic investigations of the solar system covers all aspects of solar system observations the instruments their theory and their practical use both on earth and in space it explores the state of the art telescopes cameras spacecraft and instruments used to analyse the interiors surfaces atmospheres and radiation belts of solar system objects in addition to radio waves gamma rays cosmic rays and neutrinos this book would be ideal for university students undertaking physical science subjects and professionals working in the field in addition to amateur astronomers and anyone interested in learning more about our local astronomical neighbours

contributions in honour of john j dobbins professor of roman art and archaeology at the university of virginia offers new readings of archaeological data and art illustrating the impact that one professor can have on the wider field of roman art and archaeology through the continuing work of his students

the curious case of the vintage car is a mystery about a man who is infatuated with a wrecked 1932 buick buys it to repair and finds something in it that causes him to feel obligated to locate the original owner owners in the process he opens a pandora s box exposing himself to a new way of life and living in the midst of intrigue in the process he finds consolation in the re establishment of a relationship with a thought to be lost childhood acquaintance

this is not a law book the cases and trials are of no legal value to the practitioner they have been selected solely for their human

interest lawyer and layman will be entertained alike by the cases in the birmingham court of requests and will read with pity for the victims and astonishment at human credulity the trials of the witches in the second part of the book contents part i cases in the birmingham court of requests taken from hutton s collection of cases part ii witch trials reprinted from the wonders of the invisible world by cotton mather and further account of the trials by increase mather

sherman holmes has reached a crossroads in his life having inherited a large fortune from a hitherto unknown relative john garden also has a decision to make that will have a far reaching effect on his future the two happen to book into the same hotel the black swan on the same weekend to mull over the changes to their lives that both of them are thinking of making meeting purely by chance foundations for a friendship are laid based on their mutual love of conan doyle s sherlock holmes stories when a murder occurs in the hotel though it isn t long before their bond strengthens as they decide to form an alliance and unmask the murderer they soon find that death is following them like a faithful dog and as the case gets more tangled they make the decision to cement their alliance formally and set up as private investigators this first book in the series is a romp through a small english town featuring a pompous would be holmes of baker street and his own cross dressing watson mercurially tempered colin holmes cat also makes his first appearance

vols for 1887 92 include proceedings of 1 6th annual convention of the international association of factory inspectors of north america

devides into three parts the first covering matsushita s childhood and the founding and early development of the matsushita electric appliance factory 1894 1925 the secondary the period of rapid business expansion 1927 1933 and the third world war ii and the postwar recovery up through the present
