over 120 delightful pen and ink illustrations by the author add another dimension of good natured charm to these wide ranging explorations a mind expanding volume for the layman and the science minded

traditional chinese edition of mathematics in 10 lessons the grand tour this is one of the best books to help lay a solid foundation of math skills for children and for adults who are a little rusty it goes into details to explain concepts and wordings from the very beginning and build up step by step in chinese distributed by tsai fong books inc

in this new edition of the transpersonal john rowan takes account of the growing interest in spirituality assessing the many new developments in the field and providing an essential overview of the multitude of guides now available on the subject by providing a clear and highly readable introduction to the realm of the transpersonal this book eliminates many of the misunderstandings that plague this area it relates the transpersonal to everyday life as well as to professional concerns and the various schools of therapy divided into three parts being doing and knowing it encourages the reader to explore the levels of consciousness the techniques involved in transpersonal work and the underlying theory the unique relationship between the therapist and client is examined in detail as are the imagined and imaginal world personal mythology and transcultural work an entirely new section is included on the ways in which the transpersonal therapist can use the concept of subpersonalities this fully updated and revised version of john rowan s original pioneering text provides a highly practical guide which will be useful to anyone working with the growing number of people with spiritual concerns

does human life have any significance the statements below have become widely accepted in the western world life is the accidental product of random events the laws of physics are totally deterministic science does not accept a connection between physical matter and human consciousness atheism is a conclusion from evidence while faith is speculation science and faith are incompatible suffering contradicts the existence of a loving omnipotent god jesus was a compilation of pagan mythologies or a human teacher who was deified but do these

statements represent eternal truths are they logical conclusions based on established facts or merely opinions what is the evidence to investigate these and other questions of existence and faith a skeptical academic objectively explored relevant aspects of philosophy mythology history archaeology cosmology quantum physics biochemistry and various faiths that finally led to investigation of the judeo christian scriptures including the dead sea scrolls and the gnostic gospels the findings of this research not only challenge many modern assumptions but also have significant implications for our understanding of reality written with minimum technicality for general readership this book presents a wide range of interesting and carefully confirmed facts relevant to the above questions whether you are an atheist or an agnostic a christian or a follower of another faith or have simply not been interested this investigation provides valuable and surprising insights into the nature of the universe and our place in it

full of intellectual treats and tricks of whimsy and deep scientific philosophy it is highbrow entertainment at its best a teasing challenge to all who aspire to think about the universe newyork herald tribune one of the world s foremost nuclear physicists celebrated for his theory of radioactive decay among other accomplishments george gamow possessed the unique ability of making the world of science accessible to the general reader he brings that ability to bear in this delightful expedition through the problems pleasures and puzzles of modern science among the topics scrutinized with the author s celebrated good humor and pedagogical prowess are the macrocosm and the microcosm theory of numbers relativity of space and time entropy genes atomic structure nuclear fission and the origin of the solar system in the pages of this book readers grapple with such crucial matters as whether it is possible to bend space why a rocket shrinks the end of the world problem excursions into the fourth dimension and a host of other tantalizing topics for the scientifically curious brimming with amusing anecdotes and provocative problems one two three infinity also includes over 120 delightful pen and ink illustrations by the author adding another dimension of good natured charm to these wide ranging explorations whatever your level of scientific expertise chances are you ll derive a great deal of pleasure stimulation and information from this unusual and imaginative book it belongs in the library of anyone curious about the wonders of

the scientific universe in one two three infinity as in his other books george gamow succeeds where others fail because of his remarkable ability to combine technical accuracy choice of material dignity of expression and readability saturdayreview of literature

bringing together 17 articles by renowned scholars from around the globe this volume offers a multi dimensional view of comparative and world literature drawing on the scope of these scholars collective intellects and insights it connects disparate research contexts to illuminate the multi dimensional views of related areas as we step into the third decade of the 21st century the book will be of particular interest to scholars working in comparative literary and cultural studies and to readers interested in the future of literary studies in a cross culturized world

though he has authored more than eleven novels including cassandra singing the suicide s wife abducted by circumstance and the recent london bridge in plague and fire david madden has been publishing short stories for all six decades of his active career the last bizarre tale consists of works that appeared in journals but that have not appeared together as a collection madden used two stories the singer and second look presents the rape of an indian brave as chapters in his 1980 novel on the big wind the headless girl s mother was first published as a chapter in a serialized novel entitled hair of the dog two other stories developed out of longer versions of madden s novels a demon in my view is part of a sequel not yet published to bijou all of the stories in david madden s third collection are distinguished by variety of content and by shifting styles and often innovative techniques they are to varying degrees and in various ways bizarre in their characters and their relationships in the kinds of internal and external conflicts and in locales and themes the title story the last bizarre tale involving a corpse that has hung on a hook in a funeral home garage for decades is evocative of poe and in its dark grotesque humor flannery o connor and carson mccullers process is as important as product to david madden writes editor james perkins and one can learn as much about the process of writing as about the human condition by a careful reading of these stories
