the field of psychometrics has a long and varied tradition across the social sciences a range of academics have sought to understand human consciousness more fully by statistical testing our abilities personalities attitudes and beliefs but perhaps the area where psychometric techniques have had most impact on contemporary society is in employee recruitment where a range of psychometric tests have become common place professor peter saville is one of the pioneers of adapting psychometric testing to the field of occupational psychology and human resource management in a career of nearly 40 years his work has been adopted by hundreds of public and private organizations assessing the suitability of prospective candidates through a range of questionnaires and tests in this anthology of his work including both keynote conference address and journal papers saville provides a masterly overview of the field of psychometrics and the key issues and questions that it raises an ideal companion for any student or researcher of hrm occupational or organizational psychology or applied psychology in general peter saville s selected works represent the thinking of one of the most influential psychologists of our time

abstract e governance has been recognized as a vital force for improvement in quality efficiency and effectiveness of governance electronic governance is defined as the application of information technology to the processes of government functioning to bring about simple moral accountable responsive and transparent smart governance karnataka has been among front ranking states in adopting e governance and has implemented several projects for improving the internal efficiency of the government and delivering better services to the citizens the karnataka information technology rules 2007 provides for a comprehensive process for electronic delivery of e governance services to citizens this study examines how computerised land records management in karnataka bhoomi has

brought transparency effectiveness and ease in the management and maintenance of the land records kodagu was selected as the area of study as it has unique land tenure system like jamma tenure jagir batamanya sarvamanya and jodi mathamanya gowdumbali and naimannu umbli tenure sagu tenure the main source of data collection for this study was through questionnaire and interview with agriculturists revenue officials and investors on land in kodagu the book showcase that bhoomi project has been beneficial to the stakeholders by minimizing the time and effort in obtaining the required documents from land revenue office with the computerisation of land records the manipulation of land records has come down as it has reduced the discretion of village accountants to issue the records of rights bhoomi has brought down bribery at the grassroot level computerisation of land records has lead to transparency in land records the transparency brought by computerisation of land records has helped the purchaser of land to get accurate information of the seller through online portal and can be sure of his investment however the book also highlights the flaws in the implementation of bhoomi projects like land records not being cent percent accurate server problem shortage of employees at bhoomicentre and like wise

this book serves as a route map for psychologists and probation officers working in probation services outlines the strategic framework for psychological services across prisons and probation gives an up to date picture of some key emerging areas of applied psychological practice in probation settings covers the development of applied psychological services court work mental health working with sex offenders risk assessment group work cognitive skills multi agency public protection panels and lifer assessments the editors are deputy head and head of psychology for prisons and probation services and therefore well placed to compile this book complements graham towel s book psychology in prisons bps blackwell 2003

as future generation information technology fgit becomes specialized and fragmented it is easy to lose sight that many topics in fgit have common threads and because of this advances in one discipline may be transmitted to others presentation of recent results obtained in different disciplines encourages this interchange for the advancement of fgit as a whole of particular interest are hybrid solutions that combine ideas taken from multiple disciplines in order to achieve something more significant than the sum of the individual parts through such hybrid philosophy a new principle can be discovered which has the propensity to propagate throughout multifaceted disciplines fgit 2009 was the first mega conference that attempted to follow the above idea of hybridization in fgit in a form of multiple events related to particular disciplines of it conducted by separate scientific committees but coordinated in order to expose the most important contributions it included the following international conferences advanced software engineering and its applications aseaa bio science and biotechnology bsbt control and automation ca database theory and application dta disaster recovery and business continuity drbc published independently future generation communication and networking fgcn that was combined with advanced communication and networking acn grid and distributed computing gdc multimedia computer graphics and broadcasting mulgrab security technology sectech signal processing image processing and pattern recognition sip and e service science and technology unesst
