of them traditionally seventy years of india s south asia policy can roughly be categorized into three overlapping phases the first one nehruvian phase which viewed the region through a prism of an internationalist the second one interventionist phase tried to shape neighbours policies to suit india s interests and the third accommodative phase when policy makers attempted to accommodate the demands of the neighbours in india s policy discourses these are not ossified categories so one can find that policy adopted during one phase was also used in the other keeping the above in mind the book discusses india s role in managing and navigating through challenges of the presence of external regional and international powers power rivalries in south asia india s maritime policy and her relationship with extended neighbours and india being visualized as a soft power by south asian countries it will certainly appeal to the academicians students journalists policy makers and all those who are interested in south asian politics

states today are far more engaged in diplomacy than ever before actively building relations with other states to harness their mutual commercial and cultural strengths prime minister narendra modi s outlook to global affairs is no different yet there is a nuanced approach in linking india s foreign policy to domestic transformation while on the one hand his policies seek to attract foreign capital technology and open foreign markets for indian products on the other they are geared towards regional stability peace and prosperity all events are texts to be analysed and the authors in this volume do so but emphatically underline that india s diplomacy under modi has got a go getting edge that it is no longer foreign anymore but a matter of public affairs and that with modi at the helm india is set to leverage its role and make itself a diplomatic superpower the nuanced and thought provoking essays by some of the most well respected analysts and practitioners of diplomacy make this book a must read for not just professionals and serious readers but for the uninitiated as well

postcolonial world founded on diversity difference and the symbolic representation of a global subaltern there is a strong sense of a lingering caricature like notion of a white european dominated homogenous club to which indian diplomats feel a deep rooted and colonially embedded desire to belong cosmopolitanism operates inside this balancing act not as an international ethic upholding an equal tolerant or liberal global order but rather as an elite aesthetic which presumes cultural compliance diplomatic accommodation and social assimilation into western mores based on 85 interviews with indian diplomats politicians and foreign policy experts as well as archival work in new delhi the book asks what the experience of historically marginalized actors inside the diplomatic club tells us about the social hierarchies of race class religion gender and caste under global order
