recently u s media policymakers and commentators of all stripes have been preoccupied with the nation s border with mexico airwaves websites and blogs are filled with concerns over border issues illegal immigrants drug wars narcotics trafficking and securing the border while this is a valid conversation it s rarely contrasted with the other u s border with canada still the longest unguarded border on earth in this fascinating book originally published in spain to much acclaim researcher íñigo moré looks at the bigger picture with a professionally trained eye he examines the world s top twenty most unequal borders what he finds is that many of these border situations share similar characteristics there is always illegal immigration from the poor country to the wealthy one there is always trafficking in illegal substances and the unequal neighbors usually regard each other with suspicion or even open hostility after surveying the top twenty moré explores in depth the cases of three borders between germany and poland spain and morocco and the united states and mexico the core problem he concludes is not drugs or immigration or self protection rather the problem is inequality itself unequal borders result he writes from a skewed interaction among markets people and states using these findings moré builds a useful new framework for analyzing border dynamics from a quantitative view based on economic inequality the borders of inequality illustrates how longstanding multidirectional misunderstandings can exacerbate cross border problems and consequent public opinion perpetuating these misunderstandings can inflame and complicate the situation but purposeful efforts to reduce inequality can produce promising results

recently u s media policymakers and commentators of all stripes have been preoccupied with the nation's border with mexico airwaves websites and blogs are filled with concerns over border issues illegal immigrants drug wars narcotics trafficking and "securing the border" while this is a valid conversation it's rarely contrasted with the other u s border with canada—still the longest unguarded border on earth in this fascinating book originally published in spain to much acclaim researcher íñigo moré looks at the bigger picture with a professionally trained eye he examines the world's "top twenty most unequal borders" what he finds is that many of these border situations share similar characteristics there is always illegal immigration from the poor country to the wealthy one there is always trafficking in illegal substances and the unequal neighbors usually regard each other with suspicion or even open hostility after surveying the "top twenty" moré explores in depth the cases of three borders between germany and poland spain and morocco and the united states and mexico the core problem he concludes is not drugs or immigration

or self protection rather the problem is inequality itself unequal borders result he writes from a skewed interaction among markets people and states using these findings morŽ builds a useful new framework for analyzing border dynamics from a quantitative view based on economic inequality the borders of inequality illustrates how longstanding Òmultidirectional misunderstandingsÓ can exacerbate cross border problemsÑand consequent public opinion perpetuating these misunderstandings can inflame and complicate the situation but purposeful efforts to reduce inequality can produce promising results

seminar paper from the year 2014 in the subject geography earth science miscellaneous grade 10 university of salzburg department of geography and geology course seminar geographies of inequalities language english abstract amin points out that it is odd that the mainstream view of cities and regions is still one of territorial entities although recent developments have been transforming cities and regions into sites immersed in global networks of organization and routinely implicated in distant connections and influences these developments have become known as globalization and were they reason why spatial configurations e g territorial borders are no longer necessarily territorial or scalar because the social economic political and cultural inside and outside are constituted through the topologies of actor networks which are becoming increasingly dynamic and varied in spatial constitution amin this paper intends to outline the circumstances and consequences of the development identified by amin in terms of the creation of new forms of inequality and disparity the first part deals with definitions in the realm of borders and boundaries the second part treats the historical current and future meanings of borders and the third part draws the connection between borders and inequality

the northern and southern borders and borderlands of the united states should have much in common instead they offer mirror articulations of the complex relationships and engagements between the united states mexico and canada in north american borders in comparative perspectiveleading experts provide a contemporary analysis of how globalization and security imperatives have redefined the shared border regions of these three nations this volume offers a comparative perspective on north american borders and reveals the distinctive nature first of the overportrayed mexico u s border and then of the largely overlooked canada u s border the perspectives on either border are rarely compared essays in this volume bring north american borders into comparative focus the contributors advance the understanding of borders in a variety of theoretical and empirical contexts pertaining to north america with an intense

sharing of knowledge ideas and perspectives adding to the regional analysis of north american borders and borderlands this book cuts across disciplinary and topical areas to provide a balanced comparative view of borders scholars policy makers and practitioners convey perspectives on current research and understanding of the united states borders with its immediate neighbors developing current border theories the authors address timely and practical border issues that are significant to our understanding and management of north american borderlands the future of borders demands a deep understanding of borderlands and borders this volume is a major step in that direction contributors bruce agnew donald k alper alan d bersin christopher brown emmanuel brunet jaily irasema coronado guadalupe correa cabrera michelle keck victor konrad francisco lara valencia tony payan kathleen staudt rick van schoik christopher wilson

addresses both social and cultural geography in a single volume authored and edited by leading authorities in the fields the companion to social and cultural geography provides reliable and up to date coverage of both foundational topics and emerging themes within two vibrant and increasingly interconnected subdisciplines of geography building upon the companion to cultural geography first published in 2013 editors ishan ashutosh and jamie winders offer an expertly curated collection of original essays with special emphasis on early career scholars geographers of color and geographers from the global south organized thematically the companion opens with a series of global dispatches from cultural and social geographers working in different disciplines and locations followed by explorations of key concepts in social and cultural geography such as identity belonging solidarity inequalities and intersectional geographies subsequent chapters examine a wide range of cultural and social geographies including creativity technologies science nature memory tourism migration labor and religion throughout the companion authors share fresh insights into the racial reckonings of late ongoing issues related to climate change the consequences of covid 19 and more across its 46 chapters the companion to social and cultural geography examines how approaches to human environment dynamics in social and cultural geography help shed light on current challenges covers critical topics such as justice protest borders public health urban planning indigeneity genders class race and sexualities emphasizes the value of a geographic perspective to understanding social and cultural dynamics discusses how geography has confronted its deep connections to colonialism imperialism and white supremacy addresses a range of emerging and established themes including queer and transgender geographies black geographies animal geographies and cultural geographies of states

incorporates a diversity of writing styles narratives and analyses such as interviews conversations short essays autobiography and autoethnography accessible authoritative and highly relevant to today's students the companion to social and cultural geography is an essential textbook for undergraduate or graduate courses on social or cultural geography cultural studies cultural sociology and ethnic studies

unequal life chances became a key feature of cross border migration to and within the enlarged europe combining transnational intersectional and cultural sociological perspectives this book develops a conceptual tool to analyse patterns contexts and mechanisms of these cross border inequalities this book synthesizes the theories of social boundaries and of intersectionality approaching cross border relations as socially generated and as an inherent element of contemporary social inequalities it analyses the mechanisms of cross border inequalities as regimes of intersection relating spatialized cross border inequalities to other types of unequal social relations in terms of gender ethnicity race class etc the conceptual arguments are supported by empirical research on cross border migration in europe migration of scientists and care workers between ukraine and germany this book integrates the analysis of space including cross border categories of global and transnational into intersectionally informed studies of social inequalities broadly it will appeal to scholars and students in the areas of sociology political sciences social anthropology and social geography in particular it will interest researchers concerned with transnational and global social inequalities the interplay of the categories gender ethnicity and class on the one hand and global and transnational relations on the other theories of space and society and migration and mobility in europe

space has been reintroduced as an analytical category to the humanities and social sciences in the early 1990s african studies is one of the fields of knowledge production where the so called spatial turn has proved to be extremely fruitful the continent provides ample evidence for complex processes of deterritorialisation migration globalisation sub nationalisms and reterritorialisation new regionalisms processes of bordering etc these dialectical processes are driven by a variety of actors political elites multinational companies warlords donor governments local traders international ngos etc as a result substantial parts of africa witness the emergence of new regimes of territoriality re ordered states transnational and sub national entities new localities and transborder formations this volume brings together contributions from anthropology history geography and political science

for several decades wealthy states international development agencies and multinational corporations have encouraged labour migration from the global south to the global north as well as providing essential workers to support the transformation of advanced economies the remittances that migrants send home have been touted as the most promising means of national development for poor and undeveloped countries as immanuel ness argues in this sharp corrective to conventional wisdom temporary labour migration represents the most recent form of economic imperialism and global domination a closer look at the economic and social evidence demonstrates that remittances deepen economic exploitation unravel societal stability and significantly expand economic inequality between poor and rich societies the book exposes the damaging political economic and social effects of migration on origin countries in africa asia and latin america and how border and security mechanisms control and marginalize low wage migrant workers especially women and youth ness asserts that remittances do not bring growth to poor countries but extend national dependence on the export of migrant workers leading to warped and unequal development on the global periphery this expert take will be a valuable resource for students and scholars of migration and development across the social sciences

this edited volume explores core questions on education and transnational mobility in a time characterized by a global pandemic recasting them through the lenses of regimes experiences and aspirations the volume brings together 20 short essays in the form of letters addressed to the coronavirus and written by international students together with eight striking illustrations that depict emotive scenes from the essays and eight academic commentaries that analytically link these personal narratives to broader societal structures this book represents a timely intervention providing an intimate glimpse into young people s hopes and the challenges they face concerning their education and mobility

this revised and updated edition explores the dynamic of eu migration and asylum policy clearly an issue that remains very topical

this publication is the result of theoretical reflections and empirical studies carried out by the united nations international research and training institute for the advancement of women un instraw it explores what other issues beyond remittances alone constitute strategic topics for deeper analysis the broader aim is to create from a gender perspective a positive synergy between migration and development this publication is evidence of the need to consider and debate new paradigms in order to

identify public policies and programmes which make gender equality central to development and which recognize women as leaders in different spheres of action

divcompares women s organizing efforts in mexico and in the borderlands to assess the way latina mobilization and activism is influenced by the socio political context in which the groups of women find themselves div
