seminar paper from the year 2009 in the subject american studies culture and applied geography grade 10 university of paderborn anglistik und amerikanistik course chicano and chicana literature and culture language english abstract the capital of mexico mexico city is located on the remains of an old city this city which was once big and gorgeous and was called tenochtitlan was razed to the ground in a very short period of time and in a very cruel manner by foreign invaders on august 13th 1521 once tenochtitlan was a capital city of the aztecs or how they called themselves mexica which they founded in the year 1325 in the course of only few centuries they managed to establish an immense empire which is known as the aztec empire today the mexica aztecs mark the beginning of the mexican culture thus in this term paper i will be dealing with the chicano culture at its very beginning who were the aztecs what does aztec mean where did they come from and how did they manage to establish such a big and powerful empire why tenochtitlan has been destroyed this term paper works with these questions in order to answer them a little journey through the history has to be done hence this term paper also offers an overview of the most important events that occurred at that time but my primary concern will be to find out how the european invaders managed to overthrow the aztec empire or how could the aztec empire fall to a small group of spanish invaders how is it possible in other words i would like to find out the reasons for the fall of the aztec empire a paper about the history and especially the ancient history is a hard venture because of a great variety of secondary literature and accordingly of the different opinions and views of the authors of this books relating to this theme one can quickly lose track of things the analysis is getting even more difficult because we have only few source documents from the aztecs today so that one can not know for sure what really happened at that time the information about the aztecs survived in the aztec codices like for

example codex mendoza where the conquests of the aztec kings and tribute areas are registered it contains also a short ethnographic overview other documents that we have today are basically chronicles of the spanish conquerors for example historia verdadera de la conquista de la nueva españa written by bernal díaz del castillo or 5 letters of cortés to the spanish king
