recently there has been an increased interest in the research and development of techniques for components of complete document analysis systems in recognition of

this trend a series of workshops on document analysis systems commenced in 1994 under the leadership of henry baird the first workshop held in kaiserslautern germany in october 1994 was chaired by andreas dengel and larry spitz the second workshop on document analysis systems was held in malvern pa usa in october 1996 chaired by jonathan j hull and suzanne liebowitz taylor the das workshop has been one of the most prestigious technical meetings bringing together a large number of scientists and engineers from all over the world to express their innovative ideas and report on their latest achievements in the area of document analysis systems the papers in this special book edition were rigorously selected from the third iapr workshop on document analysis systems das 98 held in nagano japan on 4 6 november 1998 it is worth mentioning that the papers were chosen for their original and substantial contributions to the workshop theme and this special book edition from among the 53 papers that were presented by authors from 11 countries at the das 98 after critical reviews by at least three experts we carefully selected 29 papers for this special book edition most of the contributions in this edition have been expanded or extensively revised to include helpful discussions suggestions or comments made during the workshop

this volume covers a wide range of topics in interpreting and translation research some deal with scientometrics and the history of interpreting studies arguments about conceptual analysis meta language and interpreters risk taking strategies other papers are on research skills like career management writing communicative abstracts and the practicalities of survey research several contributions address empirical issues such as expertise in simultaneous interpreting the cognitive load imposed on interpreters by a non native accent the impact of intonation on interpreting quality linguistic interference in simultaneous interpreting similarities between translation and interpreting and the relation between translation competence and revision competence the collection is a tribute to daniel gile in appreciation of his creativity and his commitment to interpreting and translation research all the contributions in some way show his influence or are related to the models and research he has shaped

this book presents the outcomes of the trans and interdisciplinary research project nemo nachhaltige erf llung von mobilit tsbed rfnissen im l ndlichen raum sustainable fulfilment of mobility needs in rural areas due to demographic change it is becoming

increasingly difficult for rural districts and communities to maintain a basic set of public transport services such as bus and train transit without encountering issues regarding necessary social participation sensible regional value creation and last but not least achievable environmental protection goals at the same time the demand for mobility in rural areas will continue to rise in the future e g due to the concentration of medical care facilities and shopping centres close to cities focusing on the development of sustainable and innovative mobility services and business models this book explains how new mobility offers can be created in which citizens themselves become mobility providers to do so it combines the findings of the individual research groups with external contributions from science and practice

first multi year cumulation covers six years 1965 70

coverage of publications outside the uk and in non english languages expands steadily until in 1991 it occupies enough of the guide to require publication in parts
