adopting the modernist master vladimir nabokov as its guide nabokov in motion modernity and movement is an exploration of the radically changing social historical technological and literary culture of the early 20th century a time when modes of communication and transportation especially were changing society in drastic and profound ways across seventy microchapters that are by turn serious ironic informative and playful and which take on topics such as automobiles trains airplanes electricity elevators advertisements telegraphs and telephones yuri leving

offers new ways to understand nabokov russian literature and technology modernism and world material culture nabokov s writings are analyzed against a broad context of prose and poetry and from the point of view of what leving calls the poetics of urbanism in literature nabokov in motion is a ground breaking exploration of urban and material themes in literature and creates a complex and vibrant cultural fabric of which nabokov is the master weaver

natural monopolies are not subject to the market based principle of competition consequently it is necessary to control companies in such monopoly positions with regard to their pricing in the future it will become more and more important to consider a possible change in the regulation regime when the future oriented costs of equity both in terms of price regulation and for conducting capital market oriented business valuations are to be determined based on the principal agent problem the book explains this topic the effect of a change in the regulation regime is presented in the form of two studies an international secondary analysis of the effects on cost of equity based on event studies of the anglo saxon area and a primary analysis based on the austrian regulation policy for electricity and gas supply systems the two studies arrive at similar results the change from a rate of return regulation to incentive regulation systems leads to a significant increase in systematic risk
