this open access volume of lidc contributions focuses on how competition and intellectual property laws incorporate sustainability objectives businesses are increasingly embracing sustainability objectives driven by the international community although competition and intellectual property law are certainly not the only tools for addressing sustainability issues they can play a role in moving toward a more sustainable society sustainability has gained prominence in competition law in all jurisdictions covered in this volume the contributions focus on classic questions such as whether sustainability agreements restrict competition and if so to what extent businesses can be exempted on efficiency grounds the papers also raise a number of questions in particular concerning the treatment of non market efficiencies the soft law and case law produced by competition authorities are examined and the leadership role of some competition authorities in the field from advocacy to policy papers and sustainability guidelines is highlighted the authors call for more individual guidance to provide enhanced transparency and clarity to industry advisors and society at large on sustainability issues with guidelines or sustainability related block exemptions providing even greater legal

certainty with regard to intellectual property the contributions examine various important issues such as the need for intellectual property rights to remain technology neutral ways to promote the use of sustainable technologies and incentives for licensing and ways to promote the dissemination of sustainable technologies including compulsory licensing cross licensing open source or frand licensing and replacing the destruction of counterfeit goods with recycling the papers also discuss greenwashing and how it can be addressed through revisions to trademarks and related rights

trading through fire scam victim to crypto freedom your blueprint to succeed most crypto books promise you the moon all hype no substance they sell charts with rocket emojis they brag about overnight millionaires they tell you it s easy this book is different it begins not with success but with betrayal a devastating crypto scam that nearly ended everything from a broken trust and a minimal balance the author began again no shortcuts no magic just systems self discipline and an unshakable will to rebuild inside trading through fire you ll discover a raw personal journey from scam victim to financial independence a trading system built on math emotional control and compounding a real trade journal and risk strategies that held under pressure it is a practical practical blueprint you can adapt this is not theory this is survival you won t find empty promises here you ll find scars lessons and structure whether you re a new trader burned by the hype or someone finally ready to take control of your financial path this book offers one thing that most don t the truth no hype no shortcuts just the blueprint if you re ready to build

the world witnessed the horrors of the holocaust the result of a strategic plan by the agencies of hitler the german fuhrer thankfully the world reacted to his machinations but only after millions of jewish victims of his hatred and declared that such horrors should happen never again but those words have not been followed through in international action and genocides have been repeated time and again since each time the genocide playbook of the nazis was followed to some degree or the other india is unique in that its current pogroms against minority populations the muslims and christians of india follow the nazi playbook to a degree that cannot be considered as coincidental india s nazis have embraced german nazi methods and are emboldened by international inaction in the cases from rwanda and burma they rely on the flawed perception of india as a democracy to shield their pogroms until perhaps it will be too late this report analyzes twelve parallels between nazi germany and india under the regime of modi and his bharatiya janata party bjp acting in conjunction with the largest voluntary paramilitary organization the rashtriya swayamsevak sangh rss modi provides the administrative legal framework to implement the ideology of the rss called hindutva deriving from the religion of hinduism it is however an extremist nationalistic and fascist offshoot that has from its inception in the early 1900s sought to marginalize religions originating outside of what is considered as greater india stretching far beyond the indian borders of today the report discusses the supremacist ideas at the core combined with a yearning of a glorious past and how it has led to dehumanization legal and economic repression vilification ghettoization and the destruction of properties all using the building of a cult figure and paramilitary training even for very young recruits this deadly machinery is brought to bear on india s muslims and to a lesser extent on india s christians with devastating and demoralizing effect we hope that the report sheds light on the dire situation for minorities being created in india by the rss bjp regime it is

imperative for the international community to set aside the economic benefits seen in india and act decisively to prevent what will certainly be mass marginalization frequent but geographically separated mass killings and continued lynchings beatings and economic deprivation of a population larger than the entire population of many of the world s countries the report ends with recommendations for the united nations states canada and civil groups to stem the rise of fascism in india and prevent yet another genocide from happening
